## PRELIMINARY STATEMENT

USG Pipeline Company, LLC, a Delaware limited liability company, owns and operates under a certificate of public convenience and necessity a natural gas pipeline system, located in the states of Tennessee and Alabama. USG Pipeline Company, LLC is engaged in the transportation of natural gas in interstate commerce.

## FT RATE SCHEDULE FIRM TRANSPORTATION SERVICE

### 1. AVAILABILITY

This Rate Schedule is available for the transportation of natural gas on a firm basis by USG Pipeline Company, LLC (hereinafter called Transporter) for any Shipper:

- (a) that completes a valid request for service and executes a Firm Transportation Agreement (“FT Agreement”), wherein Transporter agrees to transport and deliver at designated Delivery Points on behalf of Shipper, natural gas up to a specified volume, which will be designated as the Transportation Quantity. Each FT Agreement will specify the Primary Receipt and Delivery Points available for use under the FT Agreement and the Maximum Daily Quantity (“MDQ”) at each Primary Delivery and Receipt Point; and
- (b) provided that uncommitted firm capacity is available on all portions of Transporter’s system necessary to provide the service.

### 2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The service rendered shall be the transportation of natural gas up to the maximum daily entitlement (“Transportation Quantity”) set out in the FT Agreement performed under Subparts B and G of Part 284 of the Commission’s Regulations. Firm transportation service under this Rate Schedule shall be provided, to the extent Transporter determines firm capacity is available, to any Shipper in the order in which each Shipper has fulfilled the requirements of Section 5 of the General Terms and Conditions of Transporter’s Tariff; provided, however, Transporter shall not commence service until Transporter and Shipper have executed an FT Agreement. Transporter shall not be required to install, operate or maintain any additional facilities in order to provide transportation service under this Rate Schedule except as provided in Section 4.2.
- 2.2 Service shall be provided on a firm basis. However, service may be curtailed pursuant to Section 9.4 of Transporter’s General Terms and Conditions or whenever necessary to maintain gas quality or the integrity of Transporter’s system.

## FT RATE SCHEDULE FIRM TRANSPORTATION SERVICE

### 3. DELIVERIES AND RECEIPTS

- 3.1 Receipt Points: The Primary Receipt Point(s) for all gas transported by Transporter under this Rate Schedule shall be at the mutually agreeable interconnection(s) between Transporter's system and the connecting facilities shown on Exhibit A to the FT Agreement. Transporter shall not be required under any circumstances to receive gas at any Receipt Point where (1) the total quantity of gas scheduled for receipt on any day is less than that required for the accurate measurement of quantities to be received or (2) Shipper has failed to make and properly implement all necessary arrangements on upstream pipelines. The total quantity specified at all of Shipper's Primary Receipt Point(s) must equal the Transportation Quantity stated in the FT Agreement.
- 3.2 Delivery Points: The Primary Delivery Point(s) for all gas transported by Transporter under this Rate Schedule shall be at the mutually agreeable interconnection(s) between Transporter's system and the facilities shown on Exhibit A to the FT Agreement. Transporter shall not be required under any circumstances to deliver gas at any Delivery Point where (1) the total quantity of gas scheduled for delivery on any day is less than that required for the accurate measurement of quantities to be delivered or (2) Shipper has failed to make and properly implement all necessary arrangements on downstream pipelines. The total quantity specified at all of Shipper's Primary Delivery Point(s) must equal the Transportation Quantity stated in the FT Agreement, less Retainage, if any.
- 3.3 Changing Primary Receipt and Delivery Points: Subject to availability of firm capacity, Shipper may change the Primary Receipt or Delivery Points under its FT Agreement (including redistributing the Maximum Daily Quantity among points) by an amendment of Exhibit A to the FT Agreement. Such amendment shall be reflected in an executed revision of Exhibit A submitted to Transporter by the twentieth of the month preceding the month for which the change is desired. Primary Receipt and Delivery Point amendments pursuant to this section shall be given priority over all interruptible service requested through such points. Shipper shall lose its priority at previously designated Primary Receipt and Delivery Points to the extent that the amendment reduces the Maximum Daily Quantity at any point.

## FT RATE SCHEDULE FIRM TRANSPORTATION SERVICE

- 3.4 Secondary Receipt and Delivery Points: Shipper may use as a Secondary Receipt or Delivery Point any other Receipt or Delivery Point on Transporter's system by notifying Transporter in Shipper's nomination. A Shipper may also use a Primary Receipt or Delivery Point as a Secondary Point to the extent that Shipper nominates quantities at the Primary Point in excess of the Shipper's Maximum Daily Quantity for that Primary Point, but less than or equal to the Transportation Quantity under the FT Agreement. A firm Shipper's rights to use a Secondary Receipt or Delivery Point shall be superior to all interruptible Shippers' use of that point, but inferior to the rights of all firm Shippers using that point as a Primary Delivery or Receipt Point. Shipper's total receipts or deliveries on any day shall not exceed the Transportation Quantity stated in the FT Agreement (as adjusted for Retainage, if any) , and, if the capacity at a Secondary Receipt or Delivery Point is insufficient to serve all Shippers requesting the point, the receipt or delivery quantities for that point shall be allocated in accordance with Section 9 of the General Terms and Conditions.

### 4. RATES AND CHARGES

#### 4.1 Transportation Rates:

The applicable rates for service under this FT Rate Schedule are the applicable maximum Reservation and Commodity Rates shown on the effective Tariff Sheet No. 4, unless a discount or negotiated rate is agreed to by Transporter and Shipper. Transporter has the right at any time to file with the Commission to adjust the Reservation and Commodity Rates applicable to any service.

In the event Transporter and Shipper agree to establish a negotiated or discounted rate, including a fixed rate to be charged for the duration of the transportation service, said rate will be set forth in the applicable FT Agreement.

Reservation charge adjustments, if any, for curtailments of firm service will be made in accordance with Section 15.2 of Transporter's General Terms and Conditions.

## FT RATE SCHEDULE FIRM TRANSPORTATION SERVICE

- 4.2 **New Facilities:** In addition to the charges pursuant to Section 4.1 of this Rate Schedule, if Transporter agrees to construct facilities for service requested by Shipper, Transporter shall charge Shipper an amount to advance 100% of the estimated cost (including a gross-up for the income tax effects of reimbursement) of facilities constructed at the Shipper's request in order to provide transportation service under this Rate Schedule. Further, Transporter shall charge Shipper an amount to advance 100% of the estimated costs (including a gross-up for the income tax effects of reimbursement) to be incurred by Transporter for appurtenant facilities and equipment, including but not limited to electronic custody transfer equipment, metering facilities, gravimeters, calorimeters, flow controllers or other measurement or metering facilities. Such estimated advance payments shall be subject to true-up to actual costs incurred by Transporter for the construction of transportation and appurtenant facilities within 30 days following completion of construction of such facilities.
- 4.3 **Incidental Charges:** In addition to the charges pursuant to Sections 4.1 and 4.2 of this Rate Schedule, Transporter may charge Shipper an amount to reimburse Transporter 100% for any filing or similar fees and, if applicable, sales or use tax that have not been previously paid by Shipper, which Transporter incurs in establishing or rendering service.
- 4.4 **Authorized Overrun Charge:** If Shipper, upon receiving the advance approval of Transporter, should on any day take under this Rate Schedule a quantity of natural gas in excess of that which Shipper is authorized to take under Shipper's FT Agreement, then such quantity shall constitute an authorized overrun quantity. All Shipper requests for Authorized Overruns must be nominated via facsimile to Transporter. For all such authorized overrun volumes, Shipper shall pay Transporter a rate equal to the volumetric derivative of the maximum FT rate designed on a 100% load factor basis times the excess quantities delivered to Shipper, unless the parties mutually agree otherwise.

FT RATE SCHEDULE  
FIRM TRANSPORTATION SERVICE

- 4.5 Notwithstanding any provision of Transporter's effective FERC Gas Tariff to the contrary, Transporter and Shipper may mutually agree in writing to rates, rate components, charges or credits for service under this Rate Schedule that differ from those rates, rate components, charges or credits that are otherwise prescribed, required, established or imposed by this Rate Schedule or by any other applicable provision of Transporter's effective FERC Gas Tariff. If Transporter agrees to such differing rates, rate components, charges or credits ("Negotiated Rates") then the Negotiated Rate(s) shall be effective only for the period agreed upon by Transporter. During such period, the Negotiated Rate shall govern and apply to the Shipper's service and the otherwise applicable rate, rate component, charge or credit, which the parties have agreed to replace with the Negotiated Rate, shall not apply to, or be available to, the Shipper. At the end of such period, the otherwise applicable maximum rates or charges shall govern the service provided to Shipper. Only those rates, rate components, charges or credits identified by Transporter and Shipper in writing as being superseded by a Negotiated Rate shall be ineffective during the period that the Negotiated Rate is effective; all other rates, rate components, charges or credits prescribed, required, established or imposed by this Rate Schedule or Transporter's Tariff shall remain in effect. Transporter shall make any filings at the FERC necessary to effectuate a Negotiated Rate.

FT RATE SCHEDULE  
FIRM TRANSPORTATION SERVICE

5. MONTHLY BILL

The Monthly Bill for service shall be equal to:

- (a) Reservation Charge: A reservation rate determined under Section 4.1 of this Rate Schedule multiplied by the Transportation Quantity as specified in the FT Agreement;
- (b) Commodity Charge: The applicable Commodity Rate(s) under Section 4.1 of this Rate Schedule multiplied by the dekatherms of natural gas transported and delivered in the month pursuant to this Rate Schedule; and
- (c) If applicable, any other charges pursuant to Section 4 of this Rate Schedule.

6. WAIVER

Transporter may waive any rights hereunder or any obligations of Shipper hereunder on a basis that is not unduly discriminatory; provided that no waiver shall operate or be construed as a waiver of other or future rights or obligations, whether of a like or different character.

7. GENERAL TERMS AND CONDITIONS

- 7.1 Shipper shall provide Transporter with such information as is needed to meet the requirements placed on Transporter by regulation, rule, and/or order by any duly authorized agency. Furthermore, any terms or conditions not specified in this Rate Schedule shall be determined consistent with the General Terms and Conditions of Transporter's Tariff, which are incorporated into this Rate Schedule.
- 7.2 In the event of a conflict between the provisions of this Rate Schedule and Transporter's General Terms and Conditions, the provisions of Transporter's General Terms and Conditions shall govern.

## IT RATE SCHEDULE INTERRUPTIBLE TRANSPORTATION SERVICE

### 1. AVAILABILITY

This Rate Schedule is available for the transportation of natural gas on an interruptible basis by USG Pipeline Company, LLC (hereinafter called Transporter) to any Shipper:

- (a) that makes a valid request for interruptible service and executes an Interruptible Transportation Agreement (“IT Agreement”); and
- (b) to the extent that interruptible capacity is available on Transporter’s system from time to time for the receipt of gas by Transporter and the redelivery by Transporter for the account of Shipper.

### 2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The service rendered shall be the transportation of natural gas up to the Maximum Interruptible Quantity (“MIQ”) set out in the IT Agreement performed under Sub-parts B and G of Part 284 of the Commissions Regulations subject to the availability of capacity sufficient to provide the service without detriment or disadvantage to Transporter’s firm transportation customers.
- 2.2 Service shall be on an interruptible basis. Interruption of service includes decreasing, suspending, or discontinuing either the receipt or delivery of gas. Interruption and availability of interruptible capacity shall be in accord with Section 9 of the General Terms and Conditions.
- 2.3 Transporter shall not be required to install, operate or maintain any additional facilities in order to provide transportation service under this Rate Schedule.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 04/04/2013

Rate Schedule IT, Second Revised Sheet No. 12, 3.0.0 A

## IT RATE SCHEDULE INTERRUPTIBLE TRANSPORTATION SERVICE

### 3. DELIVERIES AND RECEIPTS

- 3.1 Receipt Points: All Receipt Points on Transporter's system shall be available as Receipt Points for gas transported under this Rate Schedule. Transporter shall not be required under any circumstances to receive gas at any Receipt Point where (1) the total quantity of gas scheduled for receipt on any day is less than that required for the accurate measurement of quantities to be received or (2) Shipper has failed to make and properly implement all necessary upstream arrangements on upstream pipelines.
- 3.2 Delivery Points:
- (a) All Delivery Points on Transporter's system shall be available as Delivery Points for gas transported under this Rate Schedule.
  - (b) Transporter shall not be required under any circumstances to deliver gas at any Delivery Point where (1) the total quantity of gas scheduled for delivery on any day is less than that required for the accurate measurement of quantities to be delivered or (2) Shipper has failed to make and properly implement all necessary upstream arrangements on upstream pipelines.

IT RATE SCHEDULE  
INTERRUPTIBLE TRANSPORTATION SERVICE

4. RATES AND CHARGES

- 4.1 Transportation Rates: The Transportation Rate is the maximum IT rate shown on the effective Tariff Sheet No. 4, unless otherwise mutually agreed; provided, however, Transporter has the right at any time and from time to time to adjust the rate applicable to any transportation service upon notice to Shipper to any level not less than the minimum nor more than the maximum rates established for this Rate Schedule and set forth on the effective Tariff Sheet No. 4.

In the event Transporter and Shipper agree to establish a rate that is not subject to change and that is to be charged for the duration of the transportation service, said rate will be set forth in the applicable IT Agreement.

- 4.2 New Facilities: In addition to the charges pursuant to Section 4.1 of this Rate Schedule, if Transporter agrees to construct facilities for service requested by Shipper, Transporter shall charge Shipper an amount to advance 100% of the estimated cost (including a gross-up for the income tax effects of reimbursement) of facilities constructed at the Shipper's request in order to provide transportation service under this Rate Schedule. Further, Transporter shall charge Shipper an amount to advance 100% of the estimated costs (including a gross-up for the income tax effects of reimbursement) to be incurred by Transporter for appurtenant facilities and equipment, including but not limited to electronic custody transfer equipment, metering facilities, gravimeters, calorimeters, flow controllers or other measurement or metering facilities. Such estimated advance payments shall be subject to true-up to actual costs incurred by Transporter for the construction of transportation and appurtenant facilities within 30 days following completion of construction of such facilities.

## IT RATE SCHEDULE INTERRUPTIBLE TRANSPORTATION SERVICE

- 4.3 Incidental Charges: In addition to the charges pursuant to Section 4.1 and 4.2 of this Rate Schedule, Transporter shall charge Shipper an amount to reimburse Transporter 100% for any filing or similar fees and, if applicable, sales or use tax that have not been previously paid by Shipper, that Transporter incurs in establishing or rendering service.
- 4.4 Notwithstanding any provision of Transporter's effective FERC Gas Tariff to the contrary, Transporter and Shipper may mutually agree in writing to rates, rate components, charges or credits for service under this Rate Schedule that differ from those rates, rate components, charges or credits that are prescribed, required, established or imposed by this Rate Schedule or by any other applicable provision of Transporter's effective FERC Gas Tariff. If Transporter agrees to such differing rates, rate components, charges or credits ("Negotiated Rates"), then the Negotiated Rate(s) shall be effective only for the period agreed upon by Transporter. During such period, the Negotiated Rate shall govern and apply to the Shipper's service and the otherwise applicable rate, rate component, charge or credit, which the parties have agreed to replace with the Negotiated Rate, shall not apply to, or be available to, the Shipper. At the end of such period, the otherwise applicable maximum rates or charges shall govern the service provided to Shipper. Only those rates, rate components, charges or credits identified by Transporter and Shipper in writing as being superseded by a Negotiated Rate shall be ineffective during the period that the Negotiated rate is effective; all other rates, rate components, charges or credits prescribed, required, established or imposed by this Rate Schedule or Transporter's Tariff shall remain in effect. Transporter shall make any filings at the FERC necessary to effectuate a Negotiated Rate.

### 5. SCHEDULING AND CURTAILMENT

Transporter shall schedule interruptible transportation according to the IT rate paid by Shippers each month, scheduling IT at higher rates ahead of IT at lower rates. The foregoing notwithstanding, if an IT Shipper was flowing gas under its IT Agreement during the previous month, such Shipper will be notified prior to the start of the month of delivery if its current IT nomination cannot be scheduled due to price, and given an opportunity to offer a price that will enable its IT nomination to be scheduled. IT Shippers paying the same rate shall be scheduled pro rata based on Scheduled Quantities.

IT RATE SCHEDULE  
INTERRUPTIBLE TRANSPORTATION SERVICE

6. MONTHLY BILL

The Monthly Bill for service shall equal

- (a) The applicable IT Rate multiplied by the dekatherms of natural gas transported and delivered by Transporter for Shipper in the month pursuant to this Rate Schedule;  
and
- (b) If applicable, any other charges pursuant to Section 4 of this Rate Schedule.

7. WAIVER

Transporter may waive any rights hereunder or any obligations of Shipper hereunder on a basis that is not unduly discriminatory; provided that no waiver shall operate or be construed as a waiver of other or future rights or obligations, whether of a like or different character.

8. GENERAL TERMS AND CONDITIONS

- 8.1 Shipper shall provide Transporter with such information as is needed to meet the requirements placed on Transporter by regulation, rule, and/or order by any duly authorized agency. Furthermore, any terms or conditions not specified in this Rate Schedule shall be determined consistent with the General Terms and Conditions of Transporter's Tariff, which are incorporated into this Rate Schedule.
- 8.2 In the event of a conflict between the provisions of this Rate Schedule and Transporter's General Terms and Conditions, the provisions of Transporter's General Terms and Conditions shall govern.

## GENERAL TERMS AND CONDITIONS

### 1. DEFINITION OF TERMS

The following terms when used in this Tariff and in any service agreement shall be construed to have the following meanings:

- 1.1 The term “Bidder” shall mean any person that submits a bid for released transportation capacity pursuant to the terms of Section 11 of Transporter’s General Terms and Conditions.
- 1.2 The term “British thermal unit” or “Btu” shall mean the amount of heat required to raise the temperature of one pound of water one degree Fahrenheit at a standard pressure of 14.73 dry psia at 60 degrees Fahrenheit (101.325 kPa and 15 degrees C, and dry). (The reporting basis for gigacalorie is 1.035646 Kg/cm and 15.6 degrees C and dry.)
- 1.3 The term “Central Clock Time” and “CCT” shall mean Central Daylight Time when daylight savings time is in effect and Central Standard Time when daylight savings time is not in effect.
- 1.4 The term “Confirmation” shall mean a communication that reflects the quantity of gas to be received or delivered on behalf of each Shipper at a Receipt or Delivery Point.
- 1.5 The term “cubic foot” shall mean the volume of gas that occupies one cubic foot when such gas is at a temperature of 60 degrees Fahrenheit, and at a pressure of 0.33 pounds per square inch above an assumed atmospheric pressure of 14.4 pounds per square inch (14.73 pounds per square inch absolute (psia)) and dry. For gas volumes reported in cubic meters, the standard conditions are 101.325 kPa, 15 degrees C, and dry.
- 1.6 The term “Daily Limit” shall mean the quantity specified in an Operational Flow Order at a Receipt or Delivery Point.

## GENERAL TERMS AND CONDITIONS

1.7 The term “dekatherm” or “dth” shall mean the quantity of heat energy that is 1,000,000 Btu’s. The standard quantity for nominations, confirmation and scheduling is dekatherms per Gas Day in the United States.

1.8 The term “Delivering Pipeline” shall mean East Tennessee Natural Gas Company or any other pipeline that interconnects with and delivers into Transporter.

1.9 The term “Force Majeure” shall have the meaning set forth in Section 15.1 as the grounds for relief from liability.

1.10 The term “load factor” for any given period of time shall mean the percentage obtained by dividing the amount of the average dth delivery of gas during said period by the Transportation Quantity during said period.

1.11 The term “Long Term FT Service Agreement” shall mean an FT Service Agreement with an initial term of 12 months or longer.

1.12 The term “Maximum Daily Quantity,” or “MDQ” where used herein or in a gas service agreement shall mean the maximum daily quantity of natural gas that Transporter shall be obligated to deliver under a firm transportation agreement at a particular Delivery Point each billing day or the maximum daily quantity of gas that Transporter shall be obligated to receive at a particular Receipt Point each billing day.

1.13 The term “Maximum Interruptible Quantity” or “MIQ” shall mean the maximum daily quantity that a shipper may nominate under its IT Agreement.

1.14 The term “Mcf” shall mean 1,000 cubic feet of gas.

1.15 The term “month” shall mean the period beginning at 9:00 A.M. CCT on the first day of the calendar month and ending at 9:00 A.M. CCT on the first day of the next succeeding calendar month.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 04/04/2013

Definitions, Fifth Revised Sheet No. 20, 6.0.0 A

## GENERAL TERMS AND CONDITIONS

1.16 The term “Receiving Pipeline” shall mean the pipeline or other entity that is interconnected with Transporter and physically receives gas delivered by Transporter either for its own account or that of others.

1.17 The term “Release Quantity” shall mean the maximum quantity that a Shipper releases under Section 11 of Transporter’s General Terms and Conditions, whether for temporary or permanent assignment. The Release Quantity shall be stated in dth per day.

1.18 The term “Releasing Shipper” shall mean any shipper that releases capacity pursuant to the provisions of Section 11 of Transporter’s General Terms and Conditions.

1.19 The term “Replacement Shipper” shall mean any shipper that purchases temporarily or permanently released capacity pursuant to Section 11 of Transporter’s General Terms and Conditions.

1.20 The term “Scheduled Quantity” shall mean the quantity of natural gas that Shipper nominates for receipt at a Receipt Point or the quantity that Transporter redelivers to Shipper at a Delivery Point, and that Transporter schedules for receipt and/or delivery.

1.21 The term “Shipper” shall mean any party receiving service pursuant to any of Transporter’s Rate Schedules or agreements.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/01/2012

Definitions, Fourth Revised Sheet No. 21, 5.1.0 A

## GENERAL TERMS AND CONDITIONS

1.22 The term “Shipper’s Facilities” shall mean all Shipper’s pipes, pipelines, and equipment used for physically handling, transporting, and distributing natural gas to be transported by Transporter.

1.23 The term “total heating value”, when applied to a cubic foot of gas, shall mean the number of Btu’s produced by the complete combustion with air at constant pressure of one anhydrous (dry) cubic foot of gas under a pressure of 14.73 psia and a temperature of 60 degrees Fahrenheit and when the products of combustion are cooled to the initial temperature of the gas and air and the water formed by combustion is condensed to the liquid state.

1.24 The term “Transportation Quantity” shall mean the volume of natural gas specified in Shipper’s firm transportation agreement that Transporter obligates itself to be ready to schedule, receive and deliver (adjusted for Retainage, if any) each day on behalf of Shipper. Unless otherwise agreed, the Transportation Quantity shall equal the MDQ.

1.25 The term “Transporter” shall mean USG Pipeline Company, LLC.

1.26 The term “year” shall mean a period of 365 consecutive days beginning on the date natural gas is first delivered or is to be delivered under the gas transportation or other service contract, whichever is earlier, or on any anniversary thereof; provided, however, that any such year that contains a date of February 29 shall consist of 366 consecutive days.

## GENERAL TERMS AND CONDITIONS

### 2. QUALITY

Shipper is obligated to deliver to Transporter gas meeting the quality specifications in the Delivering Pipeline's tariff.

### 3. MEASUREMENT

- 3.1 Unit of Measurement: The transportation unit of gas received and delivered by Transporter shall be a dekatherm, unless otherwise indicated in this tariff.
- 3.2 Determination of Volume and Total Heating Value: The volume and the total heating value of gas received and delivered by Transporter shall be determined as follows, provided that Transporter shall have the right, at any time, to rely on the Delivering Pipeline's measurements and statements for quantities and heating values of gas received by Transporter.
  - (a) The unit of volume, for the purpose of measurement, shall be one (1) cubic foot of gas at a temperature of sixty degrees (60°) Fahrenheit, and at a pressure of thirty-three hundredths (.33) pounds per square inch above an assumed atmospheric pressure of fourteen and four tenths (14.4) pounds per square inch (fourteen and seventy-three hundredths (14.73) pounds per square inch absolute pressure) and dry. For gas volumes reported in cubic meters, the standard conditions are 101.325 kPa, 15 degrees C, and dry.
  - (b) The total heating value of the gas per cubic foot shall be as determined by the Delivering Pipeline.

## GENERAL TERMS AND CONDITIONS

- (c) Dekatherms delivered shall be determined by multiplying the Mcf delivered by the ratio of the total heating value of the gas delivered to 1,000. For purposes of this determination the specific gravity and heating value shall be determined at approximately the same time.
- (d) The temperature of the gas passing through the meters shall be determined by a temperature transducer, other electronic temperature recording device, a recording thermometer, or any other method mutually agreed upon, so installed that it may properly record the temperature of the gas flowing through the meters.
- (e) The specific gravity of the gas delivered by Transporter shall be as determined by the Delivering Pipeline.
- (f) The deviation of the natural gas from Boyle's Law shall be determined by American Gas Association Par Research Project NX-19 or any superseding applicable publications by the American Gas Association.
- (g) The closing of measurement shall be the later of the fifth (5th) Business Day after the close of the month or the third Business Day after receiving a statement from the Delivering Pipeline stating the quantities delivered to Transporter.

## GENERAL TERMS AND CONDITIONS

### 4. MEASUREMENT EQUIPMENT

- 4.1 Measuring Station: With respect to gas received or delivered under a Transportation Agreement, unless otherwise mutually agreed upon, all necessary measuring facilities shall be installed, owned, maintained and operated by Transporter or Transporter's designee near the Receipt Point(s) and Delivery Point(s).
- (a) Orifice Meters: Orifice meters, if used, shall be installed, and gas quantities computed, in accord with American National Standard Bulletin ANSI/API 2530, AGA Report No. 3, Orifice Metering of Natural Gas, dated May 16, 1985, and any modification and amendments thereof, and shall include the use of flange connections and straightening vanes.
  - (b) Diaphragm, Rotary or Turbine Meters: Diaphragm or Rotary meters, if used, shall be installed and gas quantities computed, in accordance with generally accepted industry practices. Turbine meters shall be installed in accordance with AGA Report No. 7 (latest edition) with quantities computed in accordance with generally accepted Industry practices.
  - (c) Electronic Flow Computers: The use of electronic or other types of flow computers is required, unless otherwise mutually agreeable, and such shall be installed, and quantities calculated, in accord with generally accepted industry practices.
  - (d) New Measurement Techniques: If, at any time, a new method or technique is developed with respect to gas measurement or the determination of the factors used in such gas measurement, such new method or technique may be substituted upon mutual agreement thereto by the parties.

## GENERAL TERMS AND CONDITIONS

- 4.2 Right to be present: Transporter and Shipper shall have the right to have representatives present at the time of any installing, reading, cleaning, changing, repairing, inspecting, testing, calibrating or adjusting done in connection with the other's measuring equipment used in measuring or checking the measurement of deliveries of gas under the transportation contract. The records from such measuring equipment shall remain the property of their owner, but, upon request, each will submit to the other its records and charts, together with calculations therefrom, for inspection and verification, subject to return within ten days after receipt thereof.
- 4.3 Care required: All installations of measuring equipment applying to or affecting deliveries of gas shall be made in such manner as to permit an accurate determination of the quantity of gas delivered and ready verification of the accuracy of measurement. Care shall be exercised by both parties in the installation, maintenance and operation of pressure-regulating equipment so as to prevent any inaccuracy in the determination of the quantity of gas delivered under the transportation contract.

## GENERAL TERMS AND CONDITIONS

- 4.4 Calibration and test of meters: The accuracy of Transporter's or Shipper's measuring equipment shall be verified at reasonable intervals and, if requested, in the presence of representatives of the other party, but neither party shall be required to verify the accuracy of such equipment more frequently than once in any thirty-day period. In the event either party shall notify the other that it desires a special test of any measuring equipment, the parties shall cooperate to secure a prompt verification of the accuracy of such equipment. The expense of any such special test, if called for, shall be borne by the requesting party if the measuring equipment tested is found to be in error not more than two percent (2%)

If, upon test, any measuring equipment is found to be in error by not more than two percent (2%) , previous recordings of such equipment shall be considered accurate in computing deliveries of gas, but such equipment shall be adjusted at once to record accurately.

If, upon test, any measuring equipment shall be found to be inaccurate by an amount exceeding two percent (2%) , at a recording corresponding to the average hourly rate of flow for the period since the last preceding test, then any previous recordings of such equipment shall be corrected to zero error for any period that is known definitely, but in case the period is not known or agreed upon, such correction shall be for a period extending over one-half of the time elapsed since the date of last test, not exceeding a correction period of sixteen days.

If Transporter elects to rely on the Delivering Pipeline's measurements of quantities or heat values for gas transported in Transporter's system, then Transporter or Shipper may request verification of measuring equipment by the Delivering Pipeline. Shipper shall coordinate with Transporter any requests made by Shipper to the Delivering Pipeline and Transporter shall have a right to be notified of and attend any tests made by the Delivering Pipeline of equipment that measures deliveries to Transporter.

## GENERAL TERMS AND CONDITIONS

- 4.5 Correction of metering errors - failure of meters: In the event a meter is out of service or registering inaccurately, the volume of gas delivered shall be determined:
- (a) by using the registration of any check meter or meters, if installed and accurately registering; or, in the absence of (a);
  - (b) by correcting the error if the percentage of error is ascertainable by calibration, tests, or mathematical calculation; or, in the absence of both (a) and (b), then;
  - (c) by estimating the quantity of delivery by deliveries during periods under similar conditions when the meter was registering accurately.
- 4.6 Correction of metering errors - adjustments: A measurement data correction shall become a prior period adjustment (PPA) after the fifth (5th) business day following the delivery month. Measurement data corrections shall be processed within six (6) months from the delivery month, unless (i) Transporter and Shipper mutually agree otherwise or (ii) the correction is the result of a deliberate omission or misrepresentation by a Party or a mutual mistake of fact. In all instances where a correction is made, Shipper or Transporter, as applicable, has 90 days to dispute the correction. In the case of corrections made under (i) or (ii) above, the period for resolving corrections will be tolled until the correction is settled.
- 4.7 Preservation of metering records: Transporter and Shipper shall each preserve for a period of at least one year all test data, charts and other similar records.

## GENERAL TERMS AND CONDITIONS

### 5. CONTRACTING FOR SERVICE

- 5.1 All Shippers requesting firm transportation service or interruptible transportation service must provide the information required by this Section 5 and on Transporter's Service Request Form, in order to qualify for service. No request for service will be processed or entered on Transporter's log until a completed Request Form has been provided. A request for service shall be made no earlier than 90 days prior to the proposed commencement date of service and shall not be accepted unless capacity necessary to render the service is available; provided, however, if additional facilities on Transporter's system are required, the request may be made at an earlier date.

Any modification, in whole or in part, of an existing service shall be requested by Shipper's submission of a new Service Request Form with a notation on the form that the service requested is a modification of an existing service. Transporter shall maintain a log of all firm transportation requests. Any Shipper may request a modification of all or part of any existing service by submitting a service Request Form, provided that such modification shall not be treated as a request for new service if the modification involves the same point(s) of receipt and delivery, the same degree of firmness, and no reduction in the rate to be paid by Shipper.

## GENERAL TERMS AND CONDITIONS

- 5.2 Any request shall include the information listed below. Shipper shall provide any additional information required by Transporter to process the request; provided, that the request for additional information shall not affect the priority of Shipper's request.
- (a) Gas Quantities: Shipper shall provide the appropriate quantity information applicable to the type of service requested as follows:
    - (i) for firm transportation, Shipper shall provide the Transportation Quantity or Quantities stated in dekatherms and the estimated total quantities to be received and transported over the delivery period;
    - (ii) for interruptible transportation, Shipper shall provide the Maximum Interruptible Quantity and the estimated total quantities to be received and transported over the delivery period.
  - (b) Receipt/Delivery Point: For firm transportation requests, Shipper shall provide:
    - (i) the designated Primary Receipt Point(s) and Primary Delivery Point(s); and
    - (ii) the Maximum Daily Quantity at each point; and
    - (iii) the name of the party delivering the gas to Transporter; and
    - (iv) the name of the party to receive the gas from Transporter.
  - (c) Term: The proposed commencement and termination dates of service.
  - (d) Shipper Certification: For transportation requests, Shipper shall provide a statement by the Shipper certifying that all necessary upstream and downstream arrangements will be in place on the date the service is to commence and that the Shipper will have title or the right to acquire title to the gas to be delivered to Transporter.

## GENERAL TERMS AND CONDITIONS

- (e) Facilities: For any request, identification and location of any facilities to be constructed or installed by any party affected by the proposed service.
  - (f) Credit Evaluation: For any request, all credit information required in Section 6 of the General Terms and Conditions of Transporter's Tariff.
- 5.3 Prepayment: Shippers requesting service shall submit, with their request for service, a check or wire transfer in an amount equal to the lesser of \$10,000 or the total estimated charges applicable to the proposed service for a three month period. This amount shall be credited to Shipper's bill for the first month of the requested service. If the requested service is not available, Transporter shall refund the entire amount of the prepayment less any applicable charges under Section 23.2, within thirty days of notification by Transporter that service cannot be provided. All prepayments made to Transporter are to be sent by electronic transfer to Transporter at an address to be furnished by Transporter.
- 5.4 If Transporter denies a request, the denial shall indicate the reason therefore and the request shall be of a continuing nature for a period of ninety (90) days but shall thereafter be deemed a nullity for all present and future purposes.
- 5.5 Allocation of Firm Capacity
- (a) New Capacity
    - (1) Firm capacity that becomes available on Transporter's system due to contract termination shall be posted on Transporter's Internet Web site. Transporter may accept requests for such capacity on a first come, first served basis or Transporter shall post a notice for solicitation of bids in an open season for such capacity. The open season will state the bid period, which will be for a minimum of three (3) Business Days for service terms of less than one year and a minimum of five (5) Business Days for service terms of one year or more. At the time of posting, Transporter will identify the criteria to be used in calculating the net present value, including, but not limited to, the weighing of each criteria, the method of calculating net present value, and the discount factor to be used. In determining highest net present value, Transporter will consider objective criteria only.

## GENERAL TERMS AND CONDITIONS

Upon conclusion of the open season, Transporter shall award capacity based on the "best bid" which shall be the bid which yields to Transporter the highest net present value. Unless a bid evaluation method is set forth in the open season posting, Transporter shall evaluate bids in accordance with the present value formula in GT&C Section 11.3(d). In determining the highest net present value in connection with a Shipper paying a negotiated rate higher than the maximum recourse rate, such negotiated rate Shipper paying a rate higher than the maximum recourse rate will be deemed to be paying a rate equal to the maximum recourse rate. Transporter may reject any bids for capacity at less than the maximum reservation rate and may post a minimum acceptable rate.

(2) In the event Transporter receives two (2) or more bids that qualify as the "best bid" (i.e., two (2) or more bids that produce an equivalent net present value), capacity subject to the open season will be allocated between or among such requests pro rata based on the MDQ requested; provided, however, if a bidder offered capacity on a pro rata basis pursuant to this Section 5.5(a)(2) fails to execute a service agreement or an amendment to an existing service agreement, as applicable, in accordance with Section 5.5 below, Transporter shall deem such bidder's request to be null and void and shall reallocate the available capacity pro rata to such remaining best bids, based on the MDQ requested by those bidders.

(b) Existing Capacity - Firm capacity that is available on Transporter's system from time to time, including capacity that is not claimed through an open season, shall be posted on Transporter's Internet Web site. At Transporter's sole discretion, such capacity may be awarded on a first-come first-served basis or posted and awarded in accordance with the open season procedures set forth in Section 5.5(a). Transporter may reject any bids for capacity at less than the maximum reservation rate and may post a minimum acceptable rate.

(c) General - Transporter reserves the right to reject any bid or request for service (i) that contains a rate that is less than maximum rate, (ii) that may adversely affect the operational integrity of Transporter's system, (iii) that does not satisfy all the terms of the applicable posting, (iv) for which the requesting Shipper does not demonstrate creditworthiness pursuant to Section 6 of the General Terms and Conditions, and/or (v) that contains terms and conditions other than those provided for in Transporter's FERC Gas Tariff. If Transporter rejects any request for available capacity posted pursuant to this Section 5.5, Transporter will notify the bidder via e-mail of its reason(s) for such rejection.

(d) Within two Business Days after an award of capacity under this Section 5.5, Transporter shall post on its Internet Website the best bid(s), showing the net present value for such best bid(s). In the event the winning bidder is not the Shipper or potential Shipper that submitted the request for service which caused the open season to be held, such winning bidder must submit a request for service pursuant to Section 5.2 of these General Terms and Conditions.

## GENERAL TERMS AND CONDITIONS

(e) All requests for service and bids are binding, and Transporter's acceptance of a request for service or bid shall create a binding contract. Shipper and Transporter shall execute a service agreement, in the form set forth in Transporter's Tariff, for the service requested following Transporter's acceptance in writing of Shipper's request for service and prior to commencement of service. Failure of the winning bidder to execute a contract will not excuse Shipper's performance. In the event the service agreement is not executed and returned by Shipper within ten (10) days after Transporter tendered the Agreement to Shipper, Transporter may, but shall not be required to, repost the capacity for sale to another shipper.

### 6. CREDIT REQUIREMENTS

6.1 Unless previously provided to Transporter in the prior three months, a Shipper seeking service from Transporter under Rate Schedule FT or IT must provide:

- (a) a copy of Shipper's most recent audited financial statement or a financial statement certified by the Chief Financial Officer of the Shipper (which certificate shall state that such financial statements fairly represent the financial condition and the results of the operations of the Shipper for the period indicated therein) prepared in accordance with generally accepted accounting principles;
- (b) a copy of Shipper's most recent twelve months audited financial statement or Annual Report and, if applicable, 10-K form;
- (c) a list of Shipper's affiliates, including parent and subsidiaries, if applicable.

6.2 In the event Shipper cannot provide the information in Section 6.1 above, Shipper shall, if applicable, provide that information for its parent company. Transporter shall not be required to perform or to continue service under any Rate Schedule on behalf of any Shipper who is or has become insolvent or who, at Transporter's request, fails within a reasonable period to demonstrate creditworthiness, provided, however, such Shipper may receive service under any Rate Schedule if Shipper prepays for such service or furnishes good and sufficient security, as determined by Transporter in its reasonable discretion, in an amount equal to the cost of performing the service requested by Shipper for a three month period or the duration of the agreement, whichever is shorter. For purposes herein, the insolvency of a Shipper shall be conclusively demonstrated by the filing by Shipper or any parent entity thereof (hereinafter collectively referred to as "the Shipper") of a voluntary petition in bankruptcy or the entry of a decree or order by a court having jurisdiction in the premises adjudging the Shipper bankrupt or insolvent, or approving, as properly filed, a petition seeking reorganization, arrangement, adjustment or composition of or in respect of the Shipper under the Federal Bankruptcy Act or any other applicable federal or state law, or appointing a receiver, liquidator, assignee, trustee, sequestrator (or other similar official) of the Shipper or of any substantial part of its property, or the ordering of the winding-up or liquidation of its affairs.

## GENERAL TERMS AND CONDITIONS

### 7. TERMINATION OF AGREEMENTS

7.1 Termination of Long Term FT Service Agreements. If agreed to by the Parties, an FT Service Agreement may include an evergreen provision pursuant to which the Service Agreement will continue from year-to-year or month-to-month beyond the current term of the Service Agreement unless canceled by either party (a) upon 90 days prior notice to the other party in the case of a Long Term FT Service Agreement or (b) upon 30 days notice to the other party in the case of any other FT Service Agreement. A Shipper with a Long Term FT Service Agreement at the maximum tariff rate (or at a higher negotiated rate) must notify Transporter, within ten days following a notice by either Party terminating the evergreen, if Shipper wishes to invoke the right of first refusal process described in Section 7.2.

7.2 Right of First Refusal. Any Shipper with a Long Term FT Service Agreement at the maximum applicable tariff rate shall be eligible to exercise a right of first refusal to continue to receive service pursuant to the procedure outlined in this Section. If such an eligible Shipper, pursuant to the terms of a Long Term FT Service Agreement, elects to terminate its agreement or exercise its right of first refusal thereunder, the firm capacity under such agreement shall be made available in accord with the following:

- (a) If Shipper elects to terminate its service agreement without invoking the right of first refusal, the availability of the capacity will be posted on Transporter's Internet website and will be awarded on a first come/first served basis among requesting Shippers.
- (b) If Shipper desires to invoke its right of first refusal, it must notify Transporter in writing at least 180 days prior to the expiration of such service agreement, or it will waive such rights. If such notice is received by Transporter, the following procedures will apply:
  - (1) Transporter shall post the capacity for bidding on its Internet website at least 60 days prior to the termination of the service agreement. The capacity will remain posted on Transporter's Internet website for a minimum of 10 days with such posting containing the following information with respect to the capacity:
    - (i) daily and other applicable quantity limitations of capacity available;
    - (ii) Primary Receipt and Delivery points;
    - (iii) maximum reservation charge as set forth in the Summary of Rates and Charges in Transporter's Tariff;
    - (iv) any applicable restrictions; and
    - (v) the last day of the Bidding Period.

## GENERAL TERMS AND CONDITIONS

- (2) Bids shall be submitted to Transporter in writing. Such bids shall be binding and signed by an authorized representative of bidder. Upon conclusion of the Bidding Period, Transporter shall evaluate the bids in accord with the net present value formula as posted pursuant to Section 5.5(a) for awarding available new capacity, provided that Transporter shall have no obligation to accept a bid for less than the filed maximum reservation rate.
- (3) Within seven (7) Business Days of the close of the Bidding Period, Transporter shall notify Shipper of the acceptable bid, if any, having the highest present value to Transporter ("Highest Bid"). Shipper shall have five (5) Business Days after receiving notice to notify Transporter in writing as to whether it will match the Highest Bid acceptable to Transporter. Shipper's notification of its election to match the Highest Bid is contractually binding on Shipper. If the Shipper elects to match the Highest Bid, then it must execute a new service agreement that contains the terms of that Bid, within five (5) Business Days after such agreement is tendered by Transporter; provided, however, that shipper shall not be required to pay any rate higher than the maximum applicable rate.
- (4) If Transporter receives no acceptable bids on the capacity, then Shipper may continue to receive service at the maximum rate on a month-to-month basis or such other rate and/or term as Transporter and Shipper mutually agree. A Shipper who continued service under such basis shall retain its right of first refusal.

## GENERAL TERMS AND CONDITIONS

### 8. OPERATIONAL FLOW ORDERS

- 8.1 Circumstances Warranting Issuance: Transporter shall have the right to issue Operational Flow Orders (OFO) as specified in this Section that require actions by Shippers in order (1) to alleviate conditions that threaten or could threaten the safe operations or system integrity of Transporter's system, (2) to maintain pipeline operations at the pressures required to provide efficient and reliable firm transportation services, (3) to have adequate gas supplies in the system to deliver on demand, (4) to maintain service to all firm Shippers and for all firm services, (5) to maintain the system in balance for the foregoing purposes, and (6) at any time Delivering Pipeline calls an OFO on its system. An OFO identical in terms to that of the Delivering Pipeline shall be deemed to be issued automatically by Transporter whenever the Delivering Pipeline issues an OFO affecting deliveries to Transporter.
- 8.2 Applicability of OFO: To the extent practicable, based on Transporter's good faith judgment concerning the situations requiring remediation, an OFO will be directed (1) first to Shippers causing the problem necessitating the OFO or transporting gas in the area of the system in which there is an operational problem, and (2) second to those Shippers transporting gas in the area of the system where action is required to correct the problem necessitating the OFO.
- 8.3 Notice: All OFOs will be issued via telephone to be followed by a facsimile to the affected Shipper or, if requested by Shipper, via Internet e-mail to the affected Shipper's selected designee. The OFO will set forth (1) the time and date of issuance, (2) the actions Shipper/operator is required to take, (3) the time by which Shipper must be in compliance with the OFO, (4) the anticipated duration of the OFO, and (5) any other terms that Transporter may reasonably require to ensure the effectiveness of the OFO. Each Shipper must designate one or more persons, but not more than three persons, for Transporter to contact on operating matters at any time, on a 24-hour a day, 365-day a year basis. Such contact persons must have adequate authority and expertise to deal with such operating matters. If Transporter cannot contact any Shipper because that Shipper has failed to designate a contact person or Shipper's contact person is unavailable, Transporter shall not be responsible for any consequences that could have been prevented by communication. Transporter, however, will make reasonable continuing efforts to notify the affected Shipper. Notwithstanding the foregoing, notification by the Delivering Pipeline of an OFO affecting Shippers that use Transporter's system shall automatically be deemed to be an OFO on Transporter's system without further notice by Transporter.

## GENERAL TERMS AND CONDITIONS

- 8.4 Shipper compliance: A Shipper must comply with an OFO within the time period set forth therein unless the Shipper is able to demonstrate that such compliance is prevented due to a Force Majeure event as defined in Section 15 of Transporter's General Terms and Conditions. Provided that the Shipper shall make a good faith effort to comply with any such OFO, including seeking waivers of any contractual limits with third parties or modifications of operating conditions on third party systems. Shipper shall notify Transporter immediately if it believes that it is excused from compliance with the OFO for any of the above stated reasons, and shall provide Transporter with documentation sufficient to support its basis for non-compliance.
- 8.5 Penalties: If a Shipper fails to comply with an OFO, it shall be subject to (1) a penalty of \$10.00 per dth for any volume of gas by which it deviated from the requirements of the OFO and (2) an Unauthorized Overrun Charge of \$25.00 per Dth for quantities taken by Shipper in excess of its MDQ. A Shipper shall not incur any charges or penalties if such charges or penalties would not have been incurred but for Shipper's compliance with an OFO. A Shipper shall not incur any penalties if the OFO was necessitated exclusively by Transporter's negligence or willful misconduct.

## GENERAL TERMS AND CONDITIONS

- 8.6 **Liability of Transporter:** Transporter shall not be liable for any costs incurred by any Shipper in complying with an OFO. Transporter shall not be responsible for any damages that result from any interruption in Shipper's service that is a result of a Shipper's failure to comply promptly and fully with an OFO, and the non-complying Shipper shall indemnify Transporter against any claims of responsibility.
- 8.7 **Unilateral Action:** In the event that (1) Shipper(s) does not respond to an OFO, or (2) the actions taken thereunder are insufficient to correct the system problem for which the OFO was issued, or (3) there is insufficient time to carry out the procedures with respect to OFOs, Transporter may periodically take unilateral action, including the curtailment of firm service, to maintain the operational integrity of Transporter's system (or any portion thereof). For purposes of this section, the operational integrity of Transporter's system shall encompass the integrity of the physical system and the preservation of physical assets and their performance, the overall operating performance of the entire physical system as an entity (or any portion thereof), and the maintenance (on a reliable and operationally sound basis) of total system deliverability and the quality of gas delivered.
- 8.8 **Reporting:** Within thirty (30) days after an OFO terminates, Transporter shall prepare a report concerning the factors causing the OFO to be imposed and, subsequently, terminated. The report will be supplied to affected Shippers upon request.

## 9. SCHEDULING OF RECEIPTS AND DELIVERIES

- 9.1 **Receipts and Deliveries:** All Receipt and Delivery Points must be covered by an OBA or an individual balancing agreement with the Transporter.

## GENERAL TERMS AND CONDITIONS

### 9.2 Scheduling and Allocation

- (a) Scheduling on Transporter's system shall be accomplished by a Shipper following the standard nominations timeline set forth in Section 9.2(d) of these General Terms and Conditions. For purposes of scheduling initial commencement of service, no later than 11:30 A.M. (CCT) on the day prior to the beginning of the day in which the transportation service is requested to commence, Shipper will send Transporter complete customer nomination information via facsimile or electronic means specified by Transporter. Transporter will receive such complete nomination information by no later than 11:45 A.M. (CCT) on the day prior to the day service commences. The upstream/downstream interconnected party will provide Transporter, no later than 3:30 P.M. (CCT) on the day prior to the commencement of the service, with final completed confirmation that Shipper's nominated quantities will be received and delivered.

Transporter or its designee shall notify Shipper if nominated quantities are rejected and not deemed Scheduled despite receipt of such information. With notice to Shippers, Transporter may make arrangements with the Delivering Pipeline or Receiving Pipeline to facilitate Shipper's ability to Schedule on one or more systems without duplicative communications or confirmations.

## GENERAL TERMS AND CONDITIONS

- (b) Nomination notices by Shipper to Transporter shall be sent by facsimile or electronic means specified by Transporter to:

Customer Service  
USG Pipeline Company, LLC  
550 West Adams Street  
Dept. # 143-50  
Chicago, IL 60661-3676  
Fax (312) 672-4532  
Email: [usgpipeline@usg.com](mailto:usgpipeline@usg.com) <<mailto:usgpipeline@usg.com>>

No transportation service will commence unless or until (1) Transporter has received complete customer nomination information including a specification of the volumes to flow; (2) the Delivering Pipeline and Receiving Pipeline agree to deliver and receive the nominated quantities and confirm such agreement to Transporter's or its designee's reasonable satisfaction, including a specification of the quantities to flow; and (3) Shipper has been advised by Transporter or its designee that quantities have been scheduled pursuant to Shipper's service agreement. In the event of a discrepancy between the quantity nominated by a Shipper and the corresponding quantity confirmed by the Delivering Pipeline and Receiving Pipeline, Transporter shall schedule the lesser of the two quantities. Commencement of service will occur at the beginning of the Gas Day unless otherwise mutually agreed by Shipper and Transporter. All submissions of nominations and confirmations to Transporter shall be made according to the timeline for nominations set forth in Section 11.2(d) of these General Terms and Conditions.

- (c) Scheduling Duration: Unless otherwise agreed, the scheduled service specified in the Customer Nomination Form shall be effective commencing at 9:00 A.M. CCT on the beginning day and terminating at 9:00 A.M. CCT on the ending day, as specified in the Customer Nomination Form, provided that the requested time period is wholly within the term of the applicable service agreement pursuant to which the nomination is submitted.

## GENERAL TERMS AND CONDITIONS

- (d) Transporter supports the following standard nomination cycles (NAESB Version 3.1 Standard 1.3.2(i-vi) (all times are CCT pursuant to NAESB WGQ Standard No. 0.3.17):

(i) The Timely Nomination Cycle

On the day prior to gas flow:

- 1:00 p.m. Nominations leave control of the Service Requester (SR);
- 1:15 p.m. Nominations are received by the TSP (including from Title Transfer Tracking Service Providers (TTTSPs));
- 1:30 p.m. TSP sends the Quick Response to the SR;
- 4:30 p.m. TSP receives completed confirmations from Confirming Parties;
- 5:00 p.m. SR and Point Operator receive scheduled quantities from the TSP.

Scheduled quantities resulting from Timely Nominations should be effective at the start of the next Gas Day.

(ii) The Evening Nomination Cycle

On the day prior to gas flow:

- 6:00 p.m. Nominations leave control of the SR;
- 6:15 p.m. Nominations are received by the TSP (including from TTTSPs);
- 6:30 p.m. TSP sends the Quick Response to the SR;
- 8:30 p.m. TSP receives completed confirmations from Confirming Parties;
- 9:00 p.m. TSP provides scheduled quantities to the affected SR and Point Operator, including bumped parties (notice to bumped parties).

Scheduled quantities resulting from Evening Nominations should be effective at the start of the next Gas Day.

(iii) The Intraday 1 Nomination Cycle

On the current Gas Day:

- 10:00 a.m. Nominations leave control of the SR;
- 10:15 a.m. Nominations are received by the TSP (including from TTTSPs);
- 10:30 a.m. TSP sends the Quick Response to the SR;
- 12:30 p.m. TSP receives completed confirmations from Confirming Parties;
- 1:00 p.m. TSP provides scheduled quantities to the affected SR and Point Operator, including bumped parties (notice to bumped parties).

Scheduled quantities resulting from Intraday 1 Nominations should be effective at 2:00 p.m. on the current Gas Day.

## GENERAL TERMS AND CONDITIONS

### (iv) The Intraday 2 Nomination Cycle

On the current Gas Day:

- 2:30 p.m. Nominations leave control of the SR;
- 2:45 p.m. Nominations are received by the TSP (including from TTTSPs);
- 3:00 p.m. TSP sends the Quick Response to the SR;
- 5:00 p.m. TSP receives completed confirmations from Confirming Parties;
- 5:30 p.m. TSP provides scheduled quantities to the affected SR and Point Operator, including bumped parties (notice to bumped parties).

Scheduled quantities resulting from Intraday 2 Nominations should be effective at 6:00 p.m. on the current Gas Day.

### (v) The Intraday 3 Nomination Cycle

On the current Gas Day:

- 7:00 p.m. Nominations leave control of the SR;
- 7:15 p.m. Nominations are received by the TSP (including from TTTSPs);
- 7:30 p.m. TSP sends the Quick Response to the SR;
- 9:30 p.m. TSP receives completed confirmations from Confirming Parties;
- 10:00 p.m. TSP provides scheduled quantities to the affected SR and Point Operator.

Scheduled quantities resulting from Intraday 3 Nominations should be effective at 10:00 p.m. on the current Gas Day. Bumping is not allowed during the Intraday 3 Nomination Cycle.

(vi) For purposes of NAESB WGQ Standard No. 1.3.2 (ii), (iii), (iv), and (v), the word "provides" shall mean, for transmittals pursuant to NAESB WGQ Standards 1.4.x, receipt at the designated site, and for purposes of other forms of transmittal, it shall mean send or post.

## GENERAL TERMS AND CONDITIONS

- (e) All nominations shall be stated in terms of a daily transportation quantity; provided, however, that Transporter shall not be required to schedule any such nomination where the nominated quantity exceeds the maximum daily quantity permitted under the service agreement pursuant to which service is requested or which would require Transporter to provide an unreasonably excessive change in the hourly flow rate contrary to Section 9.5. Provided that no intra-day change shall be for a quantity that is less than the quantity of gas that has actually been scheduled to flow on such day prior to the effective time of the intra-day change; and provided further that a properly confirmed nomination shall supersede any previous nomination for such day. Unless otherwise agreed by Transporter, an intra-day nomination shall terminate at the end of the day for which it was submitted, and the nomination in effect prior to the submission of any intra-day nomination for such day shall continue in effect for the time period stated in the nomination.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/01/2012

GT&C, Third Revised Sheet No. 42, 4.1.0 A

## GENERAL TERMS AND CONDITIONS

Reserved for Future Use.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/01/2012

GT&C, Third Revised Sheet No. 43, 4.1.0 A

## GENERAL TERMS AND CONDITIONS

- (f) **Bump Protection:** Transporter shall not schedule an intra-day transportation nomination change, if the result of scheduling such nomination would be to bump flowing and scheduled transportation under any firm primary or secondary service.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/01/2012

GT&C, Second Revised Sheet No. 44, 3.0.0 A

## GENERAL TERMS AND CONDITIONS

Reserved for Future Use.

## GENERAL TERMS AND CONDITIONS

- 9.3 Scheduling Priority: Transporter shall schedule receipts and deliveries of gas which have been properly nominated and confirmed in the following sequence and/or in accordance with the supply/market rankings provided in a Shipper's Customer Nomination Form:
- (a) First among firm Shippers using Primary Receipt or Delivery Points according to the quantities of gas scheduled by such Shippers;
  - (b) Pro-rata among firm shippers using Secondary Receipt or Delivery Points according to the quantities of gas scheduled by such Shippers.
  - (c) Among interruptible services, according to the IT rate paid by Shippers each month, with IT at higher rates being scheduled ahead of IT at lower rates. IT Shippers paying the same rate shall be scheduled pro rata based on scheduled quantities. For the purpose of this subsection (c) , any Shipper paying a rate above the maximum rate, shall be deemed to be paying the maximum applicable rate.
- 9.4 Allocation of Limited Capacity
- (a) (i) Curtailment: If, on any day, Transporter determines that the capacity of its system, or any portion thereof including the point(s) at which gas is tendered for transportation is insufficient to serve all Shippers that are scheduled to receive service on such day, capacity that requires allocation shall be allocated in a manner that results in curtailment of capacity, to zero if necessary, in reverse of the order listed in Section 9.3 above. If capacity must be allocated within the services included in 9.3(a) above, customers will be curtailed pro rata based on Scheduled Quantities. If interruptible transportation must be allocated, such transportation will be curtailed according to the price being paid, with lower priced transportation being curtailed before higher priced transportation. Provided that, for the purpose of the foregoing sentence, any shipper paying above the maximum IT rate shall be deemed to be paying the maximum applicable rate.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/01/2012

GT&C, Third Revised Sheet No. 46, 4.1.0 A

## GENERAL TERMS AND CONDITIONS

Reserved for Future Use.

## GENERAL TERMS AND CONDITIONS

- (b) Upstream or Downstream Curtailment: If the Delivering Pipeline curtails or interrupts deliveries of Shipper's gas to Transporter or if the Receiving Pipeline curtails or interrupts receipts of Shipper's Gas from Transporter, transportation by Transporter shall likewise be curtailed or interrupted and Shipper will be responsible for arranging adjustments of transportation quantities on all upstream/downstream pipelines.
- 9.5 Uniform Quantities: Shipper shall deliver and receive gas in uniform daily quantities during any month, except for changes in service as provided in Section 9.2 of these General Terms and Conditions, and in uniform hourly quantities during any day with no significant fluctuation to the extent practicable. Transporter shall not be obligated to deliver to Shipper in any single hour more than 4.2% of the sum of Shipper's Transportation Quantities under Shipper's FT Agreement(s); however, to the extent that, in Transporter's sole judgment, it can do so without impairment to its other service obligations or incurrence of charges from the Delivering Pipeline, Transporter will make available hourly deliveries to Shippers without regard to the foregoing limitation. In addition to any other amounts chargeable to Shipper for unauthorized imbalances, Shipper shall reimburse Transporter for any charges or penalties incurred by Transporter from the Delivering Pipeline. Notwithstanding the foregoing, if Shipper with Transporter's consent (which consent will not be unreasonably withheld) arranges for adequate balancing services by the Delivering Pipeline or by another capable entity, then Shipper's quantities can fluctuate relative to scheduled quantities to the extent balancing support is actually provided by the Delivering Pipeline or such other entity and no disruption occurs to Transportation on behalf of other Shippers or Transporter's system integrity.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/12/2011

GT&C, First Revised Sheet No. 48, 2.0.0 A

## GENERAL TERMS AND CONDITIONS

- 9.6 **Supply Deficiencies:** If Transporter experiences a supply short fall due to the under delivery of supply to Transporter's system, then (a) if the deficient source is known, Transporter will curtail the corresponding Shipper; or (b) if the deficient sources are indeterminable, then, to the extent practicable, Transporter will curtail interruptible service first in reverse scheduling order and then pro rata FT service.
- 9.7 **Shipper Duty to Control Imbalances:**
- (a) A Shipper receiving any transportation service from Transporter will use, or will cause any party receiving or delivering Shipper's gas to use, all reasonable efforts to ensure that receipts and deliveries of gas are equal to the Scheduled Quantities.

## GENERAL TERMS AND CONDITIONS

- (b) **Balancing at Contract Termination:** Following the termination of the service agreement, Shipper shall be required to “cash out” any remaining excess or deficiency in receipts and deliveries, unless the parties mutually agree otherwise.
- (c) **Shipper Requirement to Cure Imbalance During Month:** Shipper shall maintain balance between scheduled quantities and quantities delivered to and received from Transporter. Shipper may not take more gas than scheduled without prior written consent of Transporter. At any time during a month, Transporter may direct Shipper to cure a current or accumulated imbalance as necessary in Transporter’s reasonable judgment to prevent financial or operational burdens from being imposed on Transporter or other Shipper(s) or interconnected parties. If Shipper fails to comply with Transporter’s directives within the time specified, Shipper shall pay the OFO penalty set forth in General Terms and Conditions Section 8.5 of Transporter’s Tariff in addition to any other amounts due to Transporter.
- (d) **Cash-Out Provisions:** It is the responsibility of Shipper to eliminate end-of-month imbalances by cash settlement with Transporter as set forth below, unless Shipper and Transporter agree to achieve rebalancing in-kind within a time acceptable to Transporter and to reimbursement by Shipper of any imbalance-related charges incurred by Transporter from an upstream pipeline which are attributable to Shipper’s imbalances, provided that Transporter may terminate such in-kind balancing upon five days notice to Shipper. Imbalance statements should be generated at the same time or prior to the generation of the transportation invoice. Pursuant to Section 10.1 of Transporter’s Tariff, Transporter will send Shipper a statement detailing the unresolved imbalance quantities and any cash-out amount due Shipper or Transporter. Cashouts will be determined in accordance with the following:
  - (1) **Positive Imbalances**  
In the event of a Positive Imbalance (i.e., when actual deliveries exceed scheduled quantities) , Transporter will invoice Shipper for such Positive Imbalance Quantity in accordance with the following provisions:

## GENERAL TERMS AND CONDITIONS

- (i) Such invoice will be based on the Sales Index Price multiplied by the applicable factor as follows:

Imbalance Level	Factor
0% - 5%	1.05
Greater than 5% - 10%	1.10
Greater than 10%	1.20

Imbalance Level shall be calculated by dividing the Positive Imbalance Quantity by the sum of the total quantities scheduled for delivery.

For Positive Imbalances, the Sales Index Price shall equal the highest of the daily spot prices for gas delivered during the month at Tennessee 500 Leg as reported in Gas Daily. In the event that this price is no longer available or the basis upon which such price is reported or calculated in such publication changes substantively, Transporter will file to change its tariff and may, at its discretion, select representative price(s) in the interim period, subject to Commission approval.

- (ii) The amount due Transporter for Positive Imbalances shall be the sum of:
- (1.) the Positive Imbalance Quantity multiplied by the product of the corresponding Imbalance Level Factor multiplied by the Sales Index Price; plus
  - (2.) the Positive Imbalance Quantity multiplied by the sum of the filed maximum rates for interruptible transportation (including fuel adjustment) of Tennessee Gas Pipeline Company (Zone 1) and East Tennessee Natural Gas Company.

## GENERAL TERMS AND CONDITIONS

### (2) Negative Imbalances

In the event of a Negative Imbalance (i.e., when actual deliveries are less than scheduled quantities), Transporter will pay Shipper for such Negative Imbalance Quantity in accordance with the following provisions:

- (i) Such payments will be based on the Purchase Index Price multiplied by one of the following factors:

Imbalance Level	Factor
0% - 5%	0.95
Greater than 5% - 10%	0.90
Greater than 10%	0.80

Imbalance Level shall be calculated by dividing the Negative Imbalance Quantity by the sum of the total quantities scheduled for delivery.

For Negative Imbalances, the Purchase Index Price shall equal the lowest of the daily spot prices for gas delivered during the month at Tennessee 500 Leg as reported in Gas Daily. In the event that this price is no longer available or the basis upon which such price is reported or calculated in such publication changes substantively, Transporter will file to change its tariff and may, at its discretion, select representative price(s) in the interim period, subject to Commission approval.

- (ii) The amount due Shipper for Negative Imbalances shall be the Negative Imbalance Quantity multiplied by the product of the corresponding Imbalance Level Factor multiplied by the Purchase Index Price.

## GENERAL TERMS AND CONDITIONS

9.8 **Unauthorized Delivery Charge:** Unauthorized deliveries are deliveries of gas for transportation made to Transporter at the Receipt Point(s) prior to either execution of a Transportation Agreement or confirmation of customer nomination information. For any unauthorized deliveries, Transporter shall assess (a) a Non-Critical Period charge equal to the maximum tariff rate applicable under Rate Schedule IT; or (b) a Critical Period charge equal to \$25/Dth. A Non-Critical Period shall be defined as any normal operations time period. A Critical Period shall be defined as any time period during which the operational integrity of Transporter's pipeline system is threatened. Transporter will notify Shippers of a Critical Period by a prompt Internet website posting. Transporter will waive the Critical Period charge if the unauthorized deliveries did not cause operational problems on Transporter's pipeline system, in which case Transporter shall assess the Non-Critical Period charge upon the Shipper's unauthorized deliveries. Transporter shall have the right to retain unauthorized deliveries at Receipt Point(s) that have not been cured in accordance with the above after 30 days notice to the responsible party.

9.9 **Imbalance Charge:** If Shipper's deliveries to or receipts from Transporter differ from scheduled quantities and if satisfactory arrangements have not been made for the Delivering Pipeline or other capable entity to act as the balancing party, Shipper shall pay Transporter either (a) a Non-Critical Period Imbalance Charge equal to the maximum tariff rate applicable under Rate Schedule IT; or (b) a Critical Period Imbalance Charge equal to \$15 per Dth in addition to any other applicable charges. A Non-Critical Period shall be defined as any normal operations time period. A Critical Period shall be defined as any time period during which the operational integrity of Transporter's pipeline system is threatened. Transporter will notify Shippers of a Critical Period by a prompt Internet website posting. Transporter will waive the Critical Period charge if the imbalance from scheduled quantities did not cause operational problems on Transporter's pipeline system, in which case Transporter shall assess the Non-Critical Period charge upon the Shipper's imbalance from scheduled quantities.

## GENERAL TERMS AND CONDITIONS

9.10 Netting and Trading Imbalances. Any Shipper using multiple Transportation Agreements between the same points may cause Transporter to net opposite imbalances across those agreements prior to assessing penalties, provided that the imbalances occur during the same month. Any two Shippers may agree to trade equal quantities of opposite imbalances that occur during the same month, provided that such Shippers give Transporter written notice of such trade at least seven days before payment is due for the otherwise applicable imbalance penalties thereon and Transporter confirms that the two Shippers, in fact, have offsetting imbalances. An entity shall not be deemed a “marketing affiliate” solely by reason of imbalance trading.

9.11 Penalty Crediting: In the February invoice annually, Transporter shall credit to all Non-Offending Shippers net penalty revenues, including the value of retained gas if any, collected during the prior twelve-month calendar year. Net penalty revenue credits shall be allocated in proportion to each Non-Offending Shipper’s total gas quantity actually delivered during each month during the applicable calendar year in which the Non-Offending Shipper did not incur a penalty. A Non-Offending Shipper is defined as any Shipper with an effective Service Agreement under Transporter’s Rate Schedule FT or IT who did not incur a penalty during one or more months in the applicable calendar year.

## 10. INVOICING AND PAYMENTS

10.1 Monthly invoicing date: Transporter shall prepare invoices (including imbalance statements) on or before the 9th business day of each month following the month of delivery. Invoices may be rendered by mail or facsimile.

10.2 Right of examination: Both Transporter and Shipper shall have the right to examine at any reasonable time the applicable books and records (or portions thereof) and charts of the other to the extent necessary to verify the accuracy of any statement made under or pursuant to the provisions of the gas service agreement. Upon receipt of a request, the party will either send the information relevant to the request to the other party or will provide the requestor the right to review such information in the requestor’s offices.

## GENERAL TERMS AND CONDITIONS

10.3 Monthly payment date: Shipper (or other payor) shall pay Transporter, via electronic means as designated on each monthly bill, so that payment is received and Transporter has available funds within ten (10) calendar days from the date of the invoice, for the gas service purchased by Shipper during the preceding month and invoiced by Transporter pursuant to this Tariff or the gas service agreement. Shipper (or other payor) shall provide Transporter with supporting documentation with any payment as well as the appropriate invoice number on the payment(s). Transporter shall apply the payment pursuant to the supporting documentation provided. When payment is made by electronic funds transfer, the remittance detail is due within two (2) Business Days of the payment due date.

10.4 Remedies for nonpayment: Should Shipper fail to pay all of the amount of any invoice as herein provided when such amount is due, Shipper shall pay a Charge for Late Payment. Such Charge for Late Payment shall be determined by multiplying (a) the unpaid portion of the invoice, by (b) the ratio of the number of days from the due date to the date of actual payment to 365, and by (c) the interest rate determined in accordance with Section 154.501(d) of the Commission's regulations. If such failure to pay continues for thirty (30) days after payment is due, Transporter may suspend service; and, if Transporter has provided Shipper and the FERC with at least thirty (30) days notice that service will terminate due to the non-payment, Transporter, in addition to any other remedy it may have under the service contract, may, after application to and authorization by the FERC, if that authorization is necessary, terminate the service contract; provided, however, that if Shipper in good faith shall dispute the amount of any such invoice or part thereof and shall pay to Transporter such amounts as it concedes to be correct in addition to providing such remittance detail and documentation identifying the basis for the dispute, and at any time within thirty (30) days after a demand made by Transporter shall furnish good and sufficient surety bond, guaranteeing payment to Transporter of the amount ultimately found due upon such invoices after a final determination, which may be reached either by agreement or judgment of the courts, as may be the case, then Transporter shall not be entitled to terminate the gas service agreement until default be made in the conditions of such bond.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/01/2012

GT&C, Third Revised Sheet No. 55, 4.1.0 A

## GENERAL TERMS AND CONDITIONS

10.5 Adjustment of underpayment, overpayment or error in billing: If it shall be found within six months of the date which the invoice was rendered that a Shipper has been overcharged or undercharged in any form whatsoever under the provisions of this Tariff or the service contract for the services for which the Shipper was charged under such invoice and Shipper shall have actually paid the invoices containing such overcharge or undercharge, then within thirty (30) days after the final determination thereof, which shall be no later than ninety (90) days from the date which the claim for adjustment was made, Transporter shall refund the amount of such overcharge and Shipper shall pay the amount of any such undercharge; provided, however, if the overcharge or undercharge is the result of a deliberate omission or misrepresentation by either party or a mutual mistake of fact, then the period for resolving adjustments is tolled until the claimed adjustment is settled. Interest calculated in accord with Section 10.4 above shall apply to any overcharge or undercharge not paid or refunded within thirty (30) days from the date of the determination of the amount of the undercharge or overcharge.

## GENERAL TERMS AND CONDITIONS

10.6 Nothing in these General Terms and Conditions or in any of Transporter's Rate Schedules or Service Agreements is intended to limit the rights of Transporter or Shipper with respect to invoicing and payment or any other provision contained in either the General Terms and Conditions, the Rate Schedules, or the Service Agreements in forum outside the Federal Energy Regulatory Commission.

### 11. TEMPORARY RELEASE OR PERMANENT ASSIGNMENT OF RIGHTS TO FIRM TRANSPORTATION SERVICE

11.1 Applicability - This Section 11 implements Section 284.8 of the FERC's regulations and is applicable to any Shipper that holds rights to firm transportation that elects to temporarily release or permanently assign all or a portion of such firm transportation rights ("Releasing Shipper"). For purposes hereof, the term "transportation," "transportation service" or "transportation rights" shall include firm transportation service offered under Rate Schedule FT, and the term "release" or "released" shall apply to permanent assignments as well as temporary releases unless otherwise noted. A Releasing Shipper shall have the right to release any portion of its firm transportation rights and obligations but only to the extent that the rights so released are acquired by another party pursuant to the provisions of this Section 11, that executes either a Released Transportation Service Agreement for a temporary release or a Pre-Assignment Agreement for a permanent assignment. Such party shall be referred to herein as "Replacement Shipper". A person that desires to bid on and obtain firm transportation rights released under the provisions of this Section 11 shall be known as a "Bidder."

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/12/2011

GT&C, Third Revised Sheet No. 57, 3.0.0 A

## GENERAL TERMS AND CONDITIONS

- 11.2 (a) Prior to the commencement of service pursuant to any Release Request, the Replacement Shipper shall submit to Transporter, in accordance with Section 5 of Transporter's General Terms and Conditions, a check equal to the lesser of \$10,000 or the total reservation charges under its Released Transportation Service Agreement (or corresponding exhibit) applicable to the released service for a three month period.
- (b) Subject to any restrictions in the original release, a Replacement Shipper shall be allowed to release the capacity under its Transportation Service Agreement, provided that the original release was not volumetrically based.

## GENERAL TERMS AND CONDITIONS

(c) Capacity Release Timeline (NAESB Version 3.1 Standard 5.3.2):

For biddable releases (1 year or less):

- Offers should be tendered such that they can be posted by 9:00 a.m. on a Business Day.
- Open season ends at 10:00 a.m. on the same or a subsequent Business Day.
- Evaluation period begins at 10:00 a.m. during which any contingencies are eliminated, determination of best Bid is made, and ties are broken.
- If no match is required, the evaluation period ends and the Award is posted by 11:00 a.m.
- Where match is required, the match is communicated by 11:00 a.m., the match response occurs by 11:30 a.m., and the Award is posted by 12:00 Noon.
- The contract is issued within one hour of the Award posting (with a new contract number, when applicable).
- Nomination is possible beginning at the next available nomination cycle for the effective date of the contract.

For biddable releases (more than 1 year)

- Offers should be tendered such that they can be posted by 9:00 a.m. on a Business Day.
- Open season shall include no less than three 9:00 a.m. to 10:00 a.m. time periods on consecutive Business Days.
- Evaluation period begins at 10:00 a.m. during which any contingencies are eliminated, determination of best Bid is made, and ties are broken.
- If no match is required, the evaluation period ends and the Award is posted by 11:00 a.m.
- Where match is required, the match is communicated by 11:00 a.m., the match response occurs by 11:30 a.m., and the Award is posted by 12:00 Noon.
- The contract is issued within one hour of the Award posting (with a new contract number, when applicable).
- Nomination is possible beginning at the next available nomination cycle for the effective date of the contract.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 04/01/2016

GT&C, Fourth Revised Sheet No. 59, 5.0.0 A

## GENERAL TERMS AND CONDITIONS

### (c) Capacity Release Timeline (Continued)

For non-biddable releases:

- The posting of prearranged deals that are not subject to bid are due no later than one hour prior to the nomination deadline for the applicable cycle, pursuant to NAESB WGQ Standard No. 1.3.2. The posting deadlines are:
  - Timely Cycle 12:00 Noon
  - Evening Cycle 5:00 p.m.
  - Intraday 1 Cycle 9:00 a.m.
  - Intraday 2 Cycle 1:30 p.m.
  - Intraday 3 Cycle 6:00 p.m.
- The contract is issued within one hour of the Award posting (with a new contract number, when applicable).
- Nomination is possible beginning at the next available nomination cycle for the effective date of the contract.

## GENERAL TERMS AND CONDITIONS

### 11.3 Capacity Release Process

(a) A Releasing Shipper that desires to release all or part of its capacity, including index-based releases, shall submit the Form of Release Request contained in Transporter's Tariff via fax (or other electronic means acceptable to Transporter) to Customer Service at 312-672-4532 or via email to usgpipeline@usg.com.

(b) Parties shall submit all necessary information, Release Requests and bids to Transporter for its information via facsimile or other electronic means acceptable to Transporter. In the case of prearranged releases, the Releasing Shipper shall submit with its release request a complete Exhibit R- \_\_\_\_\_ in the form set forth in the tariff and submit it with the Replacement Shipper's signature to Transporter for review and approval. In the case of releases subject to bidding, Releasing Shipper shall submit with its release request an Exhibit R- \_\_\_\_\_ that has been completed except for the price and identity of the winning bidder, which Transporter shall complete upon award of the release. Email addresses and fax numbers shall be supplied to Transporter by all Shippers and potential bidders for released capacity. If a releasing shipper desires to make an index-based release, it should contact Transporter in advance of the initial release with requested price index references that are representative of Receipt and Delivery points on Transporter's system for fixed-price transactions with next-day or next-month delivery obligations. Consistent with NAESB 5.3.65 Transporter will review with the releasing shipper the request and the steps needed to support the index. Transporter will not unreasonably withhold agreement to such a proposed request.

(c) Upon receipt and processing of such form, Transporter will post a notice on its Internet Website with the details of the offer and the deadline to submit bids, if applicable.

(d) Bid Evaluation Methodologies: The Releasing Shipper shall specify in the Release Request one of the following bid evaluation methodologies: (i) highest rate, (ii) net revenue, or (iii) present value. The Releasing Shipper shall specify any minimum acceptable rate and the formula to be utilized in evaluating the bids. If Releasing Shipper does not specify a formula for calculating present value, then Transporter shall determine the bid or bids having the highest net present value ("PV") based on the following formula:

$$PV = (\text{Bid Rate}) \times (\text{Bid Quantity}) \times ((1 - (1+i)^{-n}) / i)$$

where

Bid Rate = the daily reservation charge that the Bidder has agreed to pay.

Bid Quantity = the Released Maximum Daily Transportation Quantity stated in the Bid.

$i$  = interest rate per Day, based on an annual rate of ten (10) percent; and

$n$  = the term proposed by the Bidder, expressed in number of Days.

## GENERAL TERMS AND CONDITIONS

(e) Bids on offers of capacity release, including index-based releases, shall be made by sending via fax (or other electronic means acceptable to Transporter) the Bid Form for Released Transportation Service contained in Transporter's Tariff to Customer Service at 312-672-4532 or via email at [usgpipeline@usg.com](mailto:usgpipeline@usg.com) <<mailto:usgpipeline@usg.com>>.

(f) Transporter shall determine the best bid in accordance with the criteria set specified by the Releasing Shipper. For informational purposes only, Transporter shall post on its Internet Website, the name of the winning Bidder and the terms of the successful bid, as well as the terms for the unsuccessful bid(s) for the applicable Release Request.

11.4 Marketing of Released Capacity - Transporter shall have no obligation to market any capacity available to be released by a Releasing Shipper. Transporter, however, may agree to market capacity for a Releasing Shipper and may negotiate a fee with the Releasing Shipper for such service. Any marketing services rendered by Transporter will be provided on a non-discriminatory basis.

11.5 Further Conditions on Release of Transportation.

(a) Persons participating in this release program agree to be bound by and shall comply with the terms and conditions of this Tariff, and all applicable Commission rules, orders and regulations.

(b) All terms and conditions in all Release Requests must be objectively stated, applicable to all Bidders and non-discriminatory.

(c) The minimum term for release shall be one day and the maximum term shall be the remaining term of the Releasing Shipper's transportation service agreement.

(d) The maximum rates for any release shall be the applicable maximum reservation charge and usage charge, as well as all other applicable rates, charges, and surcharges set forth in this Tariff, notwithstanding any discount to such rates, charges or surcharges then in effect for the Releasing Shipper, provided that, the maximum reservation rates do not apply to capacity release transactions of one year or less that begin within one year of notification to Transporter.

## GENERAL TERMS AND CONDITIONS

- (e) (i) All terms and conditions of all releases must be consistent with the terms and conditions of the Releasing Shipper's transportation service agreement and with this Tariff, including the provisions on nominations and scheduling of transportation and curtailment of service.
- (ii) Transporter will post offers and bids, including prearranged deals, upon receipt. A Releasing Shipper may request a later posting time for posting of such offer, and Transporter will support such request insofar as it comports with the standard timeline set forth in Section 11.2(d) of the General Terms and Conditions of this Tariff.

For a release involving a Prearranged Replacement Shipper pursuant to (a) an Asset Management Arrangement ("AMA") (as defined in 18 C.F.R. Section 284.8(h) (3)), or (b) a state- regulated retail access program (as defined in 18 C.F.R. Section 284.8(h) (4)), or (c) an agreement to release at the maximum rate for a term longer than one year, or (d) a release for any period of 31 days or less, the Prearranged Replacement Shipper shall be awarded the released capacity without the necessity of waiting for competing bids to be submitted. However, a Releasing Shipper may not re-release capacity covered by this section 11.5(e) to the same Prearranged Replacement Shipper, without subjecting the release to bidding, until twenty-eight (28) days after the first release period has ended.

Transporter shall be notified of the release and the terms of the release by the Releasing Shipper. Transporter shall post a notice of the occurrence of the release on its EBB and/or Designated Site. If Releasing Shipper has secured a Prearranged Replacement Shipper pursuant to the implementation of an AMA transaction, the release request must also contain AMA Special Terms and Conditions which: 1) state that the release is being made to implement an AMA; and 2) specifies the quantity and term commitment of the Replacement Shipper's delivery or purchase obligation to the Releasing Shipper in sufficient detail to confirm compliance with 18 C.F.R. Section 284.8(h) (3);

## GENERAL TERMS AND CONDITIONS

Reserved for Future Use.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/01/2012

GT&C, Fourth Revised Sheet No. 64, 4.1.0 A

## GENERAL TERMS AND CONDITIONS

Reserved for Future Use.

## GENERAL TERMS AND CONDITIONS

- (f) Reserved for future use.
- (g) Notwithstanding anything herein to the contrary, all Releasing Shippers that release capacity shall remain responsible for payment of all demand charges for released transportation unless Transporter consents to a permanent release after the Replacement Shipper submits all necessary information for a new service request, satisfies all creditworthiness requirements and the Releasing and Replacement Shippers execute all necessary service agreements or amendments with Transporter. Transporter and Shipper may, in connection with their agreement to a Negotiated Rate under a firm transportation rate schedule, agree upon Releasing Shipper payment obligations and crediting mechanisms in the event of a capacity release that vary from or are in addition to those set forth herein and in Subsection (i) of this Section. The Releasing Shipper shall receive a demand credit equaling the demand dollars for which Transporter bills the Replacement Shipper. A demand rate for the purposes of this Section 11 consists of (i) the base demand rate, and (ii) all applicable surcharges. Any discount from said rate comes first off the surcharges and then off the base demand rate. Therefore a Releasing Shipper paying a discounted rate is only entitled to receive any revenues from the release of its capacity that exceed the amount of the applicable surcharges.

## GENERAL TERMS AND CONDITIONS

(k) Except in case of permanent assignment, Transporter shall accept nominations, schedule transportation, afford priority of service, and curtail service based on instructions and communications from the Releasing Shipper and the Replacement Shipper that are consistent with one another and with the terms and conditions of the Tariff and their respective service agreements. If instructions or nominations from the Releasing Shipper and Replacement Shipper, in Transporter's sole opinion, are inconsistent or conflicting, and if Transporter is unable to resolve the conflict prior to the time that it must take the required action, Transporter shall comply with the instructions of the Releasing Shipper; provided, however, that such instructions must not be inconsistent with the Tariff, in Transporter's sole opinion. The Releasing Shipper will indemnify Transporter against any claim or suit by the Replacement Shipper, its successors or assigns, arising from any action taken by Transporter in reliance upon the Releasing Shipper's nominations and instructions and will hold Transporter harmless for any action taken by Transporter in reliance upon the nominations and scheduling instructions of the Replacement Shipper. The Replacement Shipper will indemnify Transporter against any claim or suit by the Releasing Shipper, its successors or assigns, arising from any action taken by Transporter in reliance upon the nominations and scheduling instructions of the Replacement Shipper and will hold Transporter harmless for any actions taken by Transporter in reliance upon the instructions of the Releasing Shipper.

(l) Replacement Shippers may not change Primary Delivery Points or otherwise alter the underlying agreement. Replacement Shippers may use Secondary Delivery Points.

(m) All transportation rights released hereunder shall be scheduled and curtailed as firm transportation service under Section 9 of these General Terms and Conditions. Interruption or curtailment of such released service shall be in accordance with interruption or curtailment of firm service under this Tariff and as prescribed by the terms of the release.

### 11.6 Offers to Purchase Released Capacity

A party interested in purchasing released capacity not offered for release may submit a request to purchase released capacity via fax (or other electronic means acceptable to Transporter) to Customer Service at 312-672-4532 or via email to [usgpipeline@usg.com](mailto:usgpipeline@usg.com). Such request must include the terms and conditions of the offer to purchase released capacity. Upon receipt and processing of such information, Transporter will post on its Internet Website for no less than thirty (30) days the details of the offer and the deadline for responses, if applicable. Any and all potential capacity release transactions resulting from an offer to purchase released capacity must follow the procedures in this Section 11 and Transporter's tariff, including satisfaction of creditworthiness requirements and any other applicable provision.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 12/08/2016

GT&C, Second Revised Sheet No. 67, 3.0.0 A

## GENERAL TERMS AND CONDITIONS

RESERVED FOR FUTURE USE

## GENERAL TERMS AND CONDITIONS

### 12. POSSESSION OF GAS

Unless otherwise provided in the transportation agreement or applicable Rate Schedule, as between Transporter and Shipper, Shipper shall be deemed to be in exclusive control and possession of the gas to be transported (i) prior to receipt by Transporter at the Receipt Point(s), and (ii) after delivery by Transporter at the Delivery Point(s); otherwise, Transporter shall be in exclusive control and possession of the gas. The party in exclusive control and possession of the gas shall be responsible for all injury or damage caused thereby to any third party. In the absence of gross negligence or willful misconduct on the part of Transporter, Shipper waives any and all claims and demands against Transporter, its officers, employees or agents, arising out of or in any way connected with (i) the quality, use or condition of the gas after delivery from Transporter for the account of such Shipper, (ii) any losses or shrinkage of gas during or resulting from transportation hereunder, and (iii) all other claims and demands arising out of Transporter's performance of its duties hereunder.

### 13. PRESSURES AND AVAILABILITY OF DELIVERY POINTS

Shipper shall deliver gas to Transporter at the pressure required from time to time to enable the gas to enter Transporter's facilities at the Receipt Point(s). Transporter shall deliver gas to Shipper at Transporter's line pressure existing at the Delivery Point(s), subject to Transporter's protecting its operational integrity.

## GENERAL TERMS AND CONDITIONS

### 14. WARRANTY OF TITLE TO GAS

This Section 14 shall apply to all transportation service unless otherwise provided in the applicable Rate Schedule or transportation contract. Shipper warrants for itself, its successors and assigns, that it will have, at the time of delivery of gas hereunder, good title or the right to acquire title to the gas it delivers and that the gas it delivers hereunder shall be free and clear of all liens, encumbrances and claims whatsoever. In the event of a breach of this warranty, the breaching party shall indemnify the other and save it harmless from all suits, actions, debts, accounts, damages, costs, losses, and expenses arising from or out of any adverse claims of any and all persons to said gas and/or to royalties, taxes, license fees or charges thereon applicable for such delivery of gas, and that the breaching party will indemnify the other and save it harmless from all taxes or assessments that may be levied and assessed upon such delivery and which are by law payable by, and the obligation of, the party making such delivery. If Shipper's title or right to deliver gas to be transported is questioned or involved in any action, Shipper shall not qualify for or shall be ineligible to continue to receive service until such time as Shipper's title or right to deliver is free from question; provided, however, Transporter shall allow Shipper to qualify for or continue receiving service under this Tariff if Shipper furnishes a bond satisfactory to Transporter. Title to the gas received by Transporter at the Receipt Point(s) shall not pass to Transporter, except for title to gas delivered for Transporter's system fuel and uses and gas lost and unaccounted for, which shall pass to Transporter upon delivery at the Receipt Point(s).

## GENERAL TERMS AND CONDITIONS

### 15. EXCUSE OF PERFORMANCE AND REMEDIES

15.1 Relief from liability: (a) Neither Transporter nor Shipper shall be liable in damages to the other as a result of Force Majeure, including for any act, omission or circumstances occasioned by or in consequence of any acts of God, strikes, lockouts or other industrial disturbances, acts of the public enemy, wars, blockades, military action, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms or storm warnings, crevasses, floods, washouts, arrests and restraints of rulers and peoples, explosions, breakage or accident to machinery or lines of pipe, the necessity for testing, rehabilitating or making repairs or alterations to machinery or lines of pipe, freezing of wells or lines of pipe, inability of either Shipper or Transporter to obtain necessary materials, supplies, equipment or permits, labor required to comply with any obligations or conditions of an agreement, inability to obtain access to rights-of-way, the binding order of any court or governmental authority that has been resisted in good faith by all reasonable legal means, and any other cause, whether of the kind herein enumerated, or otherwise, and whether caused or occasioned by or happening on account of the act or omission of one of the parties to the gas service contract between Transporter and Shipper or some person or concern not a party thereto, not within the control of the party claiming suspension, and which by the exercise of due diligence such party is unable to prevent or overcome. Transporter and Shipper shall schedule routine maintenance in a manner that minimizes service interruptions and shall not schedule routine maintenance during periods of peak demand. Any routine maintenance that is scheduled during a period of peak demand shall not be considered an event of Force Majeure hereunder. A failure to settle or prevent any strike or other controversy with employees or with anyone purporting or seeking to represent employees shall not be considered to be a matter within the control of the party claiming suspension.

## GENERAL TERMS AND CONDITIONS

(b) Liabilities not relieved: Such causes or contingencies affecting the performance of said gas service agreement by either party, however, shall not relieve it of liability in the event of its contributory negligence or in the event of its failure to use due diligence to remedy the situation and remove the cause in an adequate manner and with all reasonable dispatch, nor shall such causes or contingencies relieve either party of its obligations to meet the quality standards set forth in Section 2, nor shall such causes or contingencies affecting the performance of said contract relieve either party from its obligations to make payments of amounts then due thereunder, nor shall such causes or contingencies relieve either party of liability unless such party shall give notice and full particulars of the same in writing or by fax to the other party as soon as possible after the occurrence relied on.

15.2 Reservation Charge Adjustments. (a) General: Subject to the conditions and limitations described in this Section 15, if Transporter fails to transport and deliver Shipper's firm quantities between primary points for more than ten consecutive days as a result of Force Majeure on Transporter's system, then Transporter shall provide reservation charge adjustments to the extent of firm curtailments beginning the eleventh day of the Force Majeure until the end of the curtailments. If Transporter curtails firm service between primary points due to scheduled maintenance or for any reason not permitted by its tariff, Transporter shall adjust reservation charges for all quantities scheduled but not delivered between primary points until the end of the curtailments.

(b) Implementation: Subject to the foregoing limitations, the reservation charges to Shipper for a given month will be adjusted downward by an amount equal to the relevant quantities that Transporter failed to transport and deliver during the month times the applicable reservation charge at 100% load factor rounded to the nearest tenth of a cent. Any reservation charge adjustment due Shipper pursuant to this Section 15 shall, in Transporter's discretion, be applied to transportation charges for the first month after the adjustment amounts are determined or offset against other amounts owed by Shipper, or refunded if the transportation agreement has terminated.

## GENERAL TERMS AND CONDITIONS

- 15.3 Termination of agreement: If either Transporter or Shipper shall fail to perform any of the covenants or obligations imposed upon it by the gas service agreement, subject to the applicable provisions of Transporter's Tariff, then in such event the other party may at its option terminate said agreement by proceeding as follows: the party not in default shall cause a written notice to be served on the party in default stating specifically the cause for terminating the agreement and declaring it to be the intention of the party giving the notice to terminate the same; thereupon the party in default shall have thirty days after the service of the aforesaid notice (or five days in the case of late payment) in which to remedy or remove the cause or causes stated in the notice for terminating the agreement, and if within said period of thirty days the party in default does so remove and remedy said cause or causes and fully indemnifies the party not in default for any and all consequences of such breach, then such notice shall be withdrawn and the agreement shall continue in full force and effect. In case the party in default does not so remedy and remove the cause or causes or does not indemnify the party giving the notice for any and all consequences of such breach, within said period of thirty days, the agreement shall terminate. Any cancellation of the agreement pursuant to the provisions of this paragraph shall be without prejudice to the right of Transporter to collect any amounts then due to it for natural gas service rendered prior to the time of cancellation, and shall be without prejudice to the right of Shipper to receive any gas that it has not received but which it has delivered to Transporter for transportation, prior to the time of cancellation, and without waiver of any remedy to which the party not in default may be entitled for violations of the agreement. Nothing herein shall prevent Transporter from taking prompt steps to protect the integrity of its system or service commitments to other Shippers.
- 15.4 General Liability Limitations. Transporter shall not be liable for any loss or damage caused by Transporter's service or failure to serve (including actions taken by Transporter to minimize damage to its facilities or to protect the operational integrity of its pipeline system), provided that, without limiting any other defenses available to Transporter including Shipper's obligation pursuant to applicable law to mitigate damages, Transporter may be held liable to Shipper (a) for Shipper's direct damages caused by Transporter's negligence or (b) for Shipper's direct, indirect, incidental, or consequential loss or damages caused by Transporter's gross negligence or willful misconduct.

## GENERAL TERMS AND CONDITIONS

### 16. NOTICES

Except when Transporter's General Terms and Conditions require it to give notice through its Internet website, any communication, notice, request, demand, statement or bill provided for in this Tariff or in a gas service agreement, or any notice that either Transporter or Shipper may desire to give to the other, shall be in writing and shall be considered as duly presented, rendered or delivered when mailed by post-paid registered or ordinary mail or when sent by electronic medium or such other method mutually agreed upon between the parties. The material so sent shall be addressed to the pertinent party at its last known post office address, or at such other address as either party may designate.

### 17. MODIFICATION

No modification of the terms and provisions of an executed gas service agreement shall be made except by the execution of a superseding gas service agreement or the execution of a superseding exhibit thereto.

### 18. NONWAIVER AND FUTURE DEFAULT

No waiver by either Transporter or Shipper of any one or more defaults by the other in the performance of any provision of a gas service agreement shall operate or be construed as a waiver of any future default or defaults, whether of a like or of a different character.

### 19. APPLICABLE REGULATIONS

This Tariff, including these General Terms and Conditions, and the respective obligations of the parties under the gas service agreements are subject to valid laws, orders, rules and regulations of duly constituted authorities having jurisdiction and are subject to change from time to time by addition, amendment or substitution as provided by law.

### 20. OPERATING INFORMATION AND ESTIMATES

At Transporter's request, any Shipper shall furnish to Transporter estimates of peak day, monthly and annual quantities of natural gas (by classification of customers as required by the Federal Energy Regulatory Commission's Regulations). In addition, Shipper shall furnish Transporter with comparable actual gas sales and end-use data relating to the ultimate consumer(s) on Transporter's system.

## GENERAL TERMS AND CONDITIONS

### 21. CODE COMPLIANCE

It shall be the Shipper's sole responsibility to purchase, install, operate, and maintain Shipper's facilities or equipment used for odorizing, handling, manufacturing, storing, transporting or distributing natural gas delivered to or received from Transporter in compliance with all applicable local, State, and Federal codes, rules, and regulations. Transporter shall not be held responsible for any damages resulting from Shippers noncompliance even if such is known to Transporter. Transporter may elect to odorize its pipeline or terminate odorization of its pipeline by giving at least 30 days prior written notice to Shipper and, if different, the operator of facilities receiving gas from Transporter.

### 22. INFORMATION AND COMMUNICATIONS REGARDING TRANSPORTATION SERVICES

#### 22.1 Access to Internet website

Information about Transporter's system and its capacity shall be provided on Transporter's HTML webpage, accessible via the Internet, at [www.usgpipeline.com](http://www.usgpipeline.com).

#### 22.2 System and Service Information

Information on the availability, pricing, or other terms of the transportation services will be made available on Transporter's Internet website.

#### 22.3 Service Complaints

Shippers are encouraged to resolve any disputes informally with Transporter. A formal complaint concerning any transportation services offered by Transporter shall be directed in writing to Customer Service, USG Pipeline Company, LLC, Dept. # 143-50, 550 West Adams Street, Chicago, Illinois 60661-3676, or via email at [usgpipeline@usg.com](mailto:usgpipeline@usg.com) <<mailto:usgpipeline@usg.com>>. Transporter will respond initially to the complaint within five Business Days, and in writing within thirty (30) days. A complainant dissatisfied with a response should resubmit the complaint in writing to Customer Service, USG Pipeline Company, LLC, Dept. # 143-50, 550 West Adams Street Chicago, Illinois 60661-3676, or via email at [usgpipeline@usg.com](mailto:usgpipeline@usg.com) <<mailto:usgpipeline@usg.com>>.

## GENERAL TERMS AND CONDITIONS

### 23. CONSTRUCTION OF FACILITIES

23.1 Transporter will have no obligation to construct any facilities but if it elects to construct for Shippers under this tariff, it will do so on a non-discriminatory basis, provided, however, Transporter shall not be obligated to construct facilities hereunder that will result in the expansion or diminishment of Transporter's pipeline system or that will place Transporter at risk for recovering costs of facilities built to satisfy individual Shippers. Transporter will own and operate all facilities constructed.

23.2 Shippers that request service that requires construction of facilities by Transporter shall reimburse Transporter for the costs of preparing facility cost estimates (including any engineering or related study costs) and for the costs of such facilities. Shipper shall pay the new facilities charge by lump sum payment, based upon Transporter's estimated cost, prior to any construction activity unless another form of payment is otherwise mutually agreed upon. Transporter may require Shipper to pay the estimated cost of preparing the facility cost estimate prior to Transporter's preparing such estimate. Such payments shall be applied to the actual cost of such new facilities; provided, however, any excess shall be returned to the Shipper and any amounts still owing shall be paid by the Shipper to Transporter within thirty days after final determination.

### 24. INCORPORATION IN RATE SCHEDULES AND SERVICE AGREEMENTS

These General Terms and Conditions are incorporated in and are a part of Transporter's Rate Schedules and Service Agreements. To the extent that any provision of a gas service agreement conflicts with any provision of the corresponding rate schedule, the provisions in the Rate Schedule shall govern. To the extent that any provision in either a gas service agreement or a Rate Schedule conflicts with any of Transporter's General Terms and Conditions, Transporter's General Terms and Conditions shall govern unless waived.

## GENERAL TERMS AND CONDITIONS

### 25. DISPOSITION OF EXCESS GAS

Transporter may make interruptible sales of gas from time to time to provide fuel and use quantities to Shippers. Further, in order to alleviate conditions that threaten the integrity of its system, Transporter may periodically acquire quantities of gas that are excess to system needs. Transporter shall have the right to make interruptible sales of such excess gas from time to time at system Receipt Points pursuant to the terms of the blanket certificate of public convenience and necessity granted to Transporter pursuant to 18 C.F.R. Section 284.284 and Order No. 636 of the Federal Energy Regulatory Commission. Such sales shall be made under rates, terms and conditions mutually agreed upon between Transporter and purchasers, provided, however, that all such sales shall be fully interruptible and shall be curtailable pro rata without regard to underlying transportation arrangements made by purchasers.

### 26. DISCOUNTING POLICY

Transporter may, from time to time, selectively adjust any or all of the rates charged to any individual shipper for service under Part 284 of the Commission's regulations for which maximum and minimum rates are stated in this FERC Gas Tariff.

### 27. NORTH AMERICAN ENERGY STANDARDS BOARD ("NAESB") STANDARDS

Compliance with 18 C.F.R. Section 284.12

Transporter has adopted the Business Practices and Electronic Communications Standards, NAESB WGQ Version 3.1, which are required by the Commission in 18 C.F.R. Section 284.12 (a), as indicated below. Standards without accompanying identification or notations are incorporated by reference. Standards that are not incorporated by reference are identified along with the tariff record in which they are located. Standards for which waivers or extensions of time have been granted are also identified.

#### **Standards not Incorporated by Reference and their Location in Tariff:**

## GENERAL TERMS AND CONDITIONS

### 28. NEGOTIATED RATES

Transporter and Shipper may mutually agree on a negotiated rate or rate formula with respect to rates, rate components, charges, or credits differing from the otherwise applicable tariff rate under Rate Schedules FT or IT.

28.1 Definition - A negotiated rate may be less than, equal to, or greater than the maximum recourse rate and/or the minimum rate; may be a rate design other than the straight fixed-variable; and may include a minimum quantity. The recourse rates will be available to any Shipper that does not wish to negotiate a rate.

28.2 Limitations - This Section 28 does not authorize the negotiation of terms and conditions of service.

28.3 Capacity Release - Except as expressly provided for in Section 11 of the General Terms and Conditions, the release of capacity under a negotiated rate agreement is capped at the maximum recourse rate; provided, however, the negotiated rate Shipper will continue to be obligated to pay Transporter the difference by which the negotiated rate exceeds the rate paid by the Replacement Shipper. Transporter and a negotiated rate Shipper may agree upon payment obligations and crediting provisions, which vary from or are different from those set forth in Transporter's capacity release provisions.

28.4 Accounting Treatment - Transporter will establish a new sub-account to record the revenues received from any negotiated rate transactions. Transporter will keep separate and identifiable each volume transported, billing determinant, rate component, surcharge, and revenue associated with a negotiated rate.

28.5 Filing Requirement - Transporter will file, prior to the commencement of service under a negotiated rate agreement, a Statement of Negotiated Rates reflecting the Shipper's exact legal name, rate schedule, negotiated rate, the term of the negotiated rate, quantities, points of receipt and delivery to which the negotiated rate applies, the exact formula underlying a negotiated rate for any negotiated rate agreement, and any other rate-related terms that apply to the negotiated rate. Such Statement of Negotiated Rates also affirms that actual negotiated rate agreements do not deviate in any material respect from the form of service agreements. Any negotiated rate agreed to pursuant to this Section 28 shall become effective only as accepted by the Commission; prior to such effective date the rate applicable to any such service shall be the maximum recourse rate.

28.6 Effect of Negotiated Rate - By agreeing to a negotiated rate, Shipper acknowledges that it is bound by the terms of such rate and Transporter shall have no refund obligation unless expressly provided by the terms of the negotiated rate.

Applicable to Rate Schedules FT and IT

Service Agreement No. \_\_\_\_\_

Control No. \_\_\_\_\_

### SERVICE AGREEMENT

THIS AGREEMENT, made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_,  
by and between USG PIPELINE COMPANY, LLC (“Transporter”) and \_\_\_\_\_  
\_\_\_\_\_ (“Shipper”).

WITNESSETH: That in consideration of the mutual covenants herein contained, the parties hereto agree as follows:

Section 1. Service to be Rendered. Transporter shall perform and Shipper shall receive service in accordance with the provisions of the effective \_\_\_\_\_ Rate Schedule and applicable General Terms and Conditions of Transporter’s FERC Gas Tariff, First Revised Volume No. 1 (Tariff), on file with the Federal Energy Regulatory Commission (Commission), as the same may be amended or superseded in accordance with the rules and regulations of the Commission. The maximum obligation of Transporter to deliver gas hereunder to or for Shipper, the designation of the points of delivery at which Transporter shall deliver or cause gas to be delivered to or for Shipper, and the points of receipt at which Shipper shall deliver or cause gas to be delivered, are specified in Appendix A, as the same may be amended from time to time by agreement between Shipper and Transporter, or in accordance with the rules and regulations of the Commission. Service hereunder shall be provided subject to the provisions of Part 284, Subpart B of the Commission’s regulations. Shipper warrants that service hereunder is being provided on behalf of \_\_\_\_\_, a local distribution company or an intrastate pipeline. For Part 284, Subpart G service, Shipper warrants that it is eligible for service and service hereunder is being provided on its own behalf.

Section 2. Term. Service under this Agreement shall commence as of \_\_\_\_\_ and, subject to any evergreen period or right of first refusal, shall continue in full force and effect until \_\_\_\_\_.

Evergreen: \_\_\_\_ Month-to-Month \_\_\_\_ Year-to-Year

Pre-granted abandonment shall apply upon termination of this Agreement, subject to any right of first refusal Shipper may have under the Commission’s regulations and Transporter’s Tariff.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 01/22/2017

FT/IT Service Agreement, Fifth Revised Sheet No. 78, 6.0.0 A

### SERVICE AGREEMENT

Section 3. Rates and Surcharges. Shipper shall pay Transporter the applicable maximum tariff rates and surcharges, including furnishing Retainage as described in the above-referenced Rate Schedule, unless otherwise agreed to by the parties in writing and specified in Appendix A to this Service Agreement, as may be amended from time to time. Transporter and Shipper may mutually agree to a negotiated rate, including applicable adjustments, pursuant to Section 4.5 of Rate Schedule FT and GT&C Section 28 or a discounted rate pursuant to Section 26 of the GT&C.

Section 4. Notices. Notices to Transporter under this Agreement shall be addressed to:

## FORM OF RELEASED TRANSPORTATION SERVICE AGREEMENT

(Applicable to firm transportation rights released pursuant to  
Section 11 of Transporter's General Terms and Conditions.)

THIS Contract is made and entered into this \_\_\_\_ day of \_\_\_\_\_ 20\_\_ by and between USG PIPELINE COMPANY, LLC, a Delaware limited liability company, hereinafter called "Transporter" and \_\_\_\_\_, a \_\_\_\_\_ corporation, hereinafter variously called "Bidder" or "Replacement Shipper." Transporter and Bidder shall be referred to herein individually as "Party" and collectively as "Parties."

WHEREAS, Transporter owns and operates an interstate natural gas transmission system and provides transportation services for third party Shippers on such system;

WHEREAS, Transporter's Tariff on file with the Federal Energy Regulatory Commission permits Shippers under Transporter's Rate Schedule FT to release some or all of their transportation rights under the terms and conditions prescribed in Transporter's Tariff;

WHEREAS, Bidder desires to enter into prearranged release agreements and/or submit bidding to acquire transportation rights released by one or more firm Shippers and Transporter's Tariff requires Bidder to enter into this Released Transportation Service Contract as a pre-condition to prearranged releases or to the submission of any such Bids; and

WHEREAS, Transporter is willing to enter into this Agreement with Bidder and provide transportation service to Bidder as a Replacement Shipper to the extent it obtains released transportation rights;

NOW THEREFORE, in consideration of the mutual covenants and agreements as herein set forth, the Parties agree as follows:

### ARTICLE I - DEFINITIONS

The definitions found in Section 1 of Transporter's General Terms and Conditions are incorporated herein by reference.

## FORM OF RELEASED TRANSPORTATION SERVICE AGREEMENT

(Applicable to firm transportation rights released pursuant to  
Section 11 of Transporter's General Terms and Conditions.)

### ARTICLE II - RELEASED TRANSPORTATION RIGHTS

In the event transportation rights are released to Bidder after bidding or the exercise of matching rights, Transporter shall prepare and submit to Bidder an Exhibit R-\_\_\_\_\_ (initially, "R-1") setting forth the maximum daily quantity of the released transportation service ("Release Quantity"), applicable Receipt and Delivery Points, the rates to be paid for service using released rights, the name of the Rate Schedule governing such released transportation rights ("Governing Rate Schedule") and any special terms and conditions applicable to the release, including conditions of curtailment or recall. If Replacement Shipper subsequently obtains additional released transportation rights pursuant to the terms and conditions of Transporter's Tariff, an additional exhibit (designated sequentially as Exhibit R-2, Exhibit R-3, etc.) shall be added to this Agreement for each such award of transportation rights. Each such Exhibit shall be added to this Agreement without any requirement of execution by Replacement Shipper (except in the case of prearranged transactions to be executed prior to submission to Transporter) and, upon such addition, shall be incorporated in and be considered a part of this Agreement. In the case of prearranged release transactions, Releasing Shipper shall prepare the Exhibit R-\_\_\_\_\_ with all terms set forth therein; and, after execution by Replacement Shipper, such Exhibit shall be submitted to Transporter with the Release Request. If consistent with the tariff and not superseded by a higher third-party or matching bid, such Exhibit R-\_\_\_\_\_ will be accepted and incorporated into this Agreement.

### ARTICLE III - GOVERNING TERMS AND CONDITIONS

This Agreement shall be subject to, governed by, and shall incorporate the applicable provisions of Transporter's Tariff, including, without limitation, Section 11 of the General Terms and Conditions thereof, the Governing Rate Schedule, and the special terms and conditions stated in each Exhibit hereto with respect to the released transportation rights described in such Exhibit. Subject to the terms, conditions, and limitations of this Agreement and Transporter's Tariff, Replacement Shipper shall be deemed a Shipper for purposes of the Governing Rate Schedule and the applicable provisions of Transporter's Tariff and shall be subject to all obligations thereof.

### ARTICLE IV - TERM

This Agreement shall become effective on the date first written above and shall remain in force and effect until terminated by either Party upon thirty days prior written notice to the other party; provided however, no such termination may take effect during the term of any release of transportation rights to Replacement Shipper hereunder.

FORM OF RELEASED TRANSPORTATION SERVICE AGREEMENT  
(Applicable to firm transportation rights released pursuant to  
Section 11 of Transporter's General Terms and Conditions.)

ARTICLE V - SUCCESSORS AND ASSIGNS

- 5.1 Either Party may assign or pledge this Agreement and all rights and obligations hereunder under the provisions of any mortgage, deed of trust, indenture, or other instrument that it has executed or may execute hereafter as security for indebtedness; otherwise, Shipper shall not assign this Agreement or any of its rights and obligations hereunder.
- 5.2 Any person or entity that shall succeed by purchase, transfer, merger, or consolidation to the properties, substantially or as an entirety, of either Party hereto shall be entitled to the rights and shall be subject to the obligations of its predecessor in interest under this Agreement.

ARTICLE VI - REPLACEMENT SHIPPER'S INDEMNIFICATION

Replacement Shipper recognizes that its rights to transportation service hereunder are solely those rights released by Releasing Shipper(s). The Replacement Shipper agrees that it will indemnify Transporter against any claim or suit of any kind by any Releasing Shipper, its successor or assigns arising from any action taken by Transporter in reliance upon the nominations, scheduling instructions or other communications from Replacement Shipper or its agents. Replacement Shipper further agrees that it will hold Transporter harmless for any action taken by Transporter in reliance upon the nominations, scheduling instructions or other communications of the Releasing Shipper or its agents. Replacement Shipper further recognizes and agrees that Transporter shall have no obligation to honor any nomination or scheduling request from Replacement Shipper or its agents that in Transporter's sole opinion conflicts with communications or instructions received by Transporter from the Releasing Shipper (or its agents) which is the source of the released transportation rights sought to be utilized by Replacement Shipper hereunder.

## FORM OF RELEASED TRANSPORTATION SERVICE AGREEMENT

(Applicable to firm transportation rights released pursuant to  
Section 11 of Transporter's General Terms and Conditions.)

### ARTICLE VII - MISCELLANEOUS PROVISIONS

- 7.1 No waiver by any party of any one or more defaults by the other in the performance of any provisions of this Agreement shall operate or be construed as a waiver of any future default or defaults, whether of a like or of a different character.
- 7.2 The headings of the articles of this Agreement are inserted for convenience of reference only and shall not affect the meaning or construction thereof.
- 7.3 THE INTERPRETATION AND PERFORMANCE OF THIS AGREEMENT SHALL BE IN ACCORDANCE WITH AND CONTROLLED BY THE LAWS OF THE STATE OF ILLINOIS, WITHOUT REGARD TO CHOICE OF LAW DOCTRINE THAT REFERS TO THE LAWS OF ANOTHER JURISDICTION.
- 7.4 This Agreement, including all provisions expressly incorporated by reference, constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior agreements, representations, and understandings, written or oral, pertaining thereto. Except as otherwise provided herein, any modifications, amendments or changes to this Agreement shall be binding upon the parties only if agreed upon in a written instrument executed by both Parties which expressly refers to this Agreement.
- 7.5 Except for changes specifically authorized pursuant to this Agreement, no modification of or supplement to the terms and conditions hereof shall be or become effective until Shipper has submitted a request for change to Transporter and Shipper has been notified by Transporter of Transporter's agreement to such change.

### PRE-ASSIGNMENT AGREEMENT

(Applicable to permanent assignment of firm transportation rights pursuant to  
Section 11 of Transporter's General Terms and Conditions)

THIS AGREEMENT is made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_ by  
and between USG PIPELINE COMPANY, LLC, a Delaware limited liability company,  
hereinafter called "Transporter" and \_\_\_\_\_, a

\_\_\_\_\_  
corporation, hereinafter called "Assignment Bidder." Transporter and Assignment Bidder shall  
be referred to herein individually as "Party" and collectively as "Parties."

WHEREAS, Transporter owns and operates an interstate natural gas transmission system  
and provides transportation service for third party Shippers on such system;

WHEREAS, Transporter's Tariff on file with the Federal Energy Regulatory Commission  
permits firm transportation Shippers under Transporter's Rate Schedule FT to release some or all  
of their transportation rights for permanent assignment under the terms and conditions prescribed  
in Transporter's Tariff;

WHEREAS, Assignment Bidder desires to submit bids for transportation rights released for  
permanent assignment and Transporter's Tariff requires Assignment Bidder to enter into this  
Pre-Assignment Agreement as a pre-condition to the submission of any such Bids; and

WHEREAS, Transporter is willing to enter into this Agreement with Assignment Bidder  
and provide transportation service to Assignment Bidder to the extent it obtains released  
transportation/storage rights;

NOW THEREFORE, in consideration of the mutual covenants and agreements as herein  
set forth, the Parties agree as follows:

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 04/04/2013

## PRE-ASSIGNMENT AGREEMENT

(Applicable to permanent assignment of firm transportation rights pursuant to  
Section 11 of Transporter's General Terms and Conditions)

### ARTICLE I - DEFINITIONS

The definitions found in Section 1 of Transporter's General Terms and Conditions are incorporated herein by reference.

### ARTICLE II - FIRM TRANSPORTATION AGREEMENT

In the event transportation rights are assigned to Assignment Bidder pursuant to Section 11 of Transporter's General Terms and Conditions, Transporter shall submit to Assignment Bidder a Firm Transportation Service Agreement in the included in Transporter's Tariff ("FT Agreement"), setting forth the Release Quantity, applicable Receipt and Delivery Points, applicable rate, and the name of the Rate Schedule governing such released transportation rights ("Governing Rate Schedule"). Assignment Bidder shall execute and return the FT Agreement, as applicable, within 7 days of its transmittal.

### ARTICLE III - GOVERNING TERMS AND CONDITIONS

This Agreement shall be subject to, shall be governed by, and shall incorporate the applicable provisions of Transporter's Tariff, including, without limitation, Section 11 of Transporter's General Terms and Conditions, and the Governing Rate Schedule.

### ARTICLE IV - TERM

This Agreement shall become effective on the date first written above and shall remain in force and effect until the later of (a) the date that Assignment Bidder returns to Transporter an executed FT Agreement, as applicable, in the form in which it was sent to Assignment Bidder or (b) thirty days following written notice by either Party of its intent to terminate this Agreement.

**PRE-ASSIGNMENT AGREEMENT**  
(Applicable to permanent assignment of firm transportation rights pursuant to  
Section 11 of Transporter's General Terms and Conditions)

**ARTICLE V - NOTICES**

Notice given under this Agreement shall be given in accordance with Section 11 of Transporter's General Terms and Conditions. Written notice shall be considered as having been given if delivered personally, or if sent by confirmed fax or by mail with all postage and charges pre-paid to either Replacement Shipper or Transporter at the place designated. Routine non-operational communications shall be considered as duly delivered when mailed by ordinary mail. Normal operating instructions shall be posted on Transporter's Internet website unless otherwise indicated in Transporter's General Terms and Conditions or the Governing Rate Schedule. Unless changed by written notice to the other party, the addresses of the Parties are as follows:

**ARTICLE VI - ASSIGNMENT**

6.1 Either Party may assign or pledge this Agreement and all rights and obligations hereunder under the provisions of any mortgage, deed of trust, indenture, or other instrument that it has executed or may execute hereafter as security for indebtedness; otherwise, Shipper shall not assign this Agreement or any of its rights and obligations hereunder.

6.2 Any person or entity that shall succeed by purchase, transfer, merger, or consolidation to the properties, substantially or as an entirety, of either Party hereto shall be entitled to the rights and shall be subject to the obligations of its predecessor in interest under this Agreement.

## PRE-ASSIGNMENT AGREEMENT

(Applicable to permanent assignment of firm transportation rights pursuant to  
Section 11 of Transporter's General Terms and Conditions)

### ARTICLE VII - MISCELLANEOUS PROVISIONS

- 7.1 No waiver by any Party of any one or more defaults by the other in the performance of any provisions of this Agreement shall operate or be construed as a waiver of any future default or defaults, whether of a like or of a different character.
- 7.2 The headings of the Articles of this Agreement are inserted for convenience of reference only and shall not affect the meaning or construction thereof.
- 7.3 THE INTERPRETATION AND PERFORMANCE OF THIS AGREEMENT SHALL BE IN ACCORDANCE WITH AND CONTROLLED BY THE LAWS OF THE STATE OF ILLINOIS, WITHOUT REGARD TO CHOICE OF LAW DOCTRINE THAT REFERS TO THE LAWS OF ANOTHER JURISDICTION.
- 7.4 This Agreement, including all provisions expressly incorporated by reference, constitutes the entire agreement between the Parties pertaining to the subject matter hereof and supersedes all prior agreements, representations and understandings, written or oral, pertaining thereto. Except as otherwise provided herein, any modifications, amendments or changes to this Agreement shall be binding upon the Parties only if agreed upon in a written instrument executed by both Parties hereto which expressly refers to this Agreement.
- 7.5 Except for changes specifically authorized pursuant to this Agreement, no modification of or supplement to the terms and conditions hereof shall be or become effective until Shipper has submitted a request for change to Transporter and Shipper has been notified by Transporter of Transporter's agreement to such change.

FOR TRANSPORTER'S USE:  
RELEASE REQUEST NO. \_\_\_\_

Re: Request to Release Rights to Firm Transportation Service

\_\_\_\_\_ (“Releasing Shipper”) hereby submits its request to release rights held by Releasing Shipper under its Firm Transportation Service Agreement (“Service Agreement”) with USG Pipeline Company, LLC (“Transporter”). Releasing Shipper proposes to release such rights pursuant to the terms and conditions of Section 11, as applicable, of Transporter’s General Terms and Conditions on file with the Federal Energy Regulatory Commission. The terms of the proposed release are as follows:

1. Releasing Shipper’s Service Agreement number and responsible contact person for this Release Request:

2. Quantity of firm service rights to be released (“Release Quantity”) (may be stated as minimum/maximum range, and must be expressed in Dth per day for release of firm transportation):

3. Commencement Date and term of release (may be stated as range of acceptable terms):

FORM OF RELEASE REQUEST

4. Primary Receipt and Delivery Points

Primary Receipt Points	Firm Rights To Be Released	
	Meter Number	At Such Point(s)
_____	_____	_____
_____	_____	_____
_____	_____	_____

Primary Delivery Points	Firm Rights To Be Released	
	Meter Number	At Such Point(s)
_____	_____	_____
_____	_____	_____
_____	_____	_____

5. All applicable rates, charges and surcharges for the release, including any minimum acceptable rates:

\_\_\_\_\_

6. The transportation rights are proposed to be released on a:

Firm basis

Recallable basis, with  
the conditions of interruption  
explained further below.

7. Any alternative non-discriminatory economic standard for determination of the award of transportation rights, including a tie-breaker to choose between bids of equal value: Releasing Shipper may attach additional pages, as necessary, to stipulate the release terms and conditions. Additionally, if Releasing Shipper proposes to require any Replacement Shipper to execute an agreement with Releasing Shipper as a condition of the release, then a copy of such agreement must be submitted with this Release Request.

## FORM OF RELEASE REQUEST

8. If Releasing Shipper has already obtained a Bidder that is prepared to accept all terms and conditions of this Release Request (“Pre-arranged Bidder”), Releasing Shipper must provide the following information:

- (a) the complete legal name of the Pre-arranged Bidder, type of legal entity and state of incorporation:
- (b) the rates and charges that the Pre-arranged Bidder agrees to pay for the Release Request:
- (c) the term and the Release Quantity agreed to by the Pre-arranged bidder:  
Term:  
Release Quantity:
- (d) other conditions of the release.

9. If the release is subject to bidding, Releasing Shipper shall attach to the Release Request draft Exhibit R-\_\_\_\_\_ reflecting terms of the release (except price and identity of the Replacement Shipper which Transporter shall fill in following the close of the bidding period) . In the case of a Prearranged Bidder (whether or not subject to bidding), the Releasing Shipper shall prepare an Exhibit R-\_\_\_\_\_ and the Prearranged Bidder shall execute such Exhibit prior to the Releasing Shipper’s submission to Transporter. The executed Exhibit R-\_\_\_\_\_ shall be submitted with the Release Request.

Releasing Shipper understands that Transporter reserves the right to invalidate any Release Request within three (3) days of its posting on its Internet website to the extent it is incomplete or fails to conform in any manner to the requirements of Transporter’s Tariff.

Releasing Shipper, by the signature of its authorized representative, represents and certifies to Transporter that 1) the individual signing below is authorized to sign this Release Request for Releasing Shipper; 2) the information above is true, complete and correct; 3) Releasing Shipper agrees irrevocably to release the transportation rights described herein on the terms and conditions set forth herein if this Release Request is accepted by a Bidder to the successful Bidder; and 4) if this Release Request includes a Pre-arranged Bidder, the Pre-arranged Bidder has agreed irrevocably to accept the transportation rights described herein on the terms and conditions set forth herein.

Re: Bid on Released Rights to Transportation Service

("Bidder") hereby submits its Bid to obtain transportation rights specified in the Release Request identified below. The terms of this Bid are as follows:

1. Complete legal name of Bidder, type of legal entity and state of incorporation:
2. Transportation contract number of Releasing Shipper and Release Request number to which the Bid relates:
3. Quantity of service desired by Bidder (must be expressed in Dth per day for bid for firm transportation service):
4. The rate Bidder proposes to pay for the released transportation rights:
5. Term for which Bidder desires to obtain the released transportation rights:

Bidder understands that Transporter reserves the right to invalidate any Bid within three (3) days of its posting on Transporter's Internet website to the extent it is incomplete or fails to conform in any manner to the requirements of Transporter's Tariff.

\_\_\_\_\_ End-User  
\_\_\_\_\_ Marketer  
\_\_\_\_\_ Broker  
\_\_\_\_\_ Other (fill in)

### SERVICE REQUEST FORM

4. Name of Shipper's contact, address and telephone number through which correspondence of the following should be directed:

Contact For Request:

---

---

---

---

Contact for Notices:

---

---

---

---

Contact For Invoices:

---

---

---

---

5. If Shipper is requesting service on behalf of another entity, please specify the full legal name of such entity and type of entity.

(Transporter reserves the right to require proof that Shipper's request meets the requirements of the applicable Commission Regulations.)

6. The intended use of the gas is:

\_\_\_\_\_ system supply for \_\_\_\_\_  
\_\_\_\_\_ end use by industry of commerce  
\_\_\_\_\_ other (fill in)

and, if the gas is for other than system supply, provide the full legal name of the ultimate consumer, the location (i.e., state) of the ultimate Delivery Point of the gas to be transported (i.e., if ultimate consumer is an end use, location(s) of plant(s) where gas is to be consumed) and indicate the identity of the on behalf of entity corresponding to each delivery point in paragraph 13 herein:

7. Date service is proposed to commence:

\_\_\_\_\_

8. Term of service:

\_\_\_\_\_

9. If additional or new facilities are required to receive or deliver gas pursuant to this Request or otherwise perform the requested service, provide a description of the facilities required, location and requested in-service date and, if the service to be provided using the new facilities is to a customer that is located in the service area of a local distribution company, specify the name of the local distribution company.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

10. The:

\_\_\_\_\_ Transportation Quantity (sum of MDQs at all Delivery Points under an FT Agreement) to be transported is \_\_\_\_\_ Dth per day.

\_\_\_\_\_ The Maximum Interruptible Quantity (sum of the maximum quantities at all Delivery Points under an IT Agreement) to be transported is \_\_\_\_\_ Dth per day.

### SERVICE REQUEST FORM

The estimated total quantity of gas to be transported during the requested term of service is \_\_\_\_\_ Dth.

11. If Shipper is purchasing gas, provide the location and state (including offshore designation) of the source(s) of supply:

---

---

---

\*12. If Shipper is selling gas, provide the name of purchaser(s) of the gas, contract quantity, and the effective and termination date(s) of executed Agreement(s) between Shipper and purchaser(s):

---

---

\*This information is not required at the time of the request but is required at the time Shipper executes the gas service contract.

13. The names of those entities delivering gas into Transporter's system and the names of those entities taking gas off Transporter's system:

Transporter Point of Receipt

Name/Delivering Entity

---

---

---

---

---

---

---

---

### SERVICE REQUEST FORM

14. Credit Evaluation - Provide all information required in Section 6 of Transporter's General Terms and Conditions. Shippers requesting service under Rate Schedule FT shall submit, with their request for service, a check or wire transfer in an amount equal to the lesser of \$10,000 or the total Reservation Charge applicable to the proposed service for a one month period. This amount shall be credited to Shipper's bill for the first month of the requested transportation service. If the requested service is not available, Transporter shall refund the entire amount of the prepayment within thirty days of notification by Transporter that service can not be provided. All prepayments made to Transporter are to be sent by check or wire transfer to Transporter or Transporter's designated bank at an address to be furnished by Transporter.

15. Is requestor affiliated with USG Pipeline Company, LLC?

\_\_\_\_\_ Yes                      \_\_\_\_\_ No

If yes, what is the percentage of affiliation?

16. Is shipper affiliated with USG Pipeline Company, LLC?

\_\_\_\_\_ Yes                      \_\_\_\_\_ No

If yes, what is the percentage of affiliation?

17. Is your supplier affiliated with USG Pipeline Company, LLC?

\_\_\_\_\_ Yes                      \_\_\_\_\_ No

If yes, what is the percentage of affiliation?

18. For marketing affiliates of USG Pipeline Company, LLC only, does the cost of gas exceed the sales price, less associated costs including transportation, i.e. is the gas being sold at a loss?

\_\_\_\_\_ Yes                      \_\_\_\_\_ No                      \_\_\_\_\_ Unknown

If so, by how much? \_\_\_\_\_

If applicable, Shipper agrees by its signature below to provide this information within twenty-five calendar days after the month in which the transportation service occurred.

### SERVICE REQUEST FORM

Shipper understands that this request form, complete and unrevised as to format, and any required prepayment must be received by Transporter before the service request will be accepted and processed.

Shipper, by its signature, certifies to Transporter (1) that the information above is correct and accurate and that all necessary transportation arrangements with the upstream and downstream Transporters have been or will be secured prior to the commencement of the requested service, (2) that Shipper will have title, or the right to acquire title, to the gas that is to be delivered to Transporter, and (3) that Shipper will advise Transporter of any changes in the information provided in item 18 five business days prior to the end of any month for the preceding month's transportation business in which a change occurred.

## SERVICE AGREEMENT

THIS AGREEMENT, made and entered into this 6<sup>th</sup> day of September, 2011, by and between USG PIPELINE COMPANY (“Transporter”) and The Cooperative District for Northeast Alabama Gas (“CDNAG”) (“Shipper”).

WITNESSETH: That in consideration of the mutual covenants herein contained, the parties hereto agree as follows:

Section 1. Service to be Rendered. Transporter shall perform and Shipper shall receive service in accordance with the provisions of the effective FT Rate Schedule and applicable General Terms and Conditions of Transporter’s FERC Gas Tariff, First Revised Volume No. 1 (Tariff) , on file with the Federal Energy Regulatory Commission (Commission) , as the same may be amended or superseded in accordance with the rules and regulations of the Commission. The maximum obligation of Transporter to deliver gas hereunder to or for Shipper, the designation of the points of delivery at which Transporter shall deliver or cause gas to be delivered to or for Shipper, and the points of receipt at which Shipper shall deliver or cause gas to be delivered, are specified in Appendix A, as the same may be amended from time to time by agreement between Shipper and Transporter, or in accordance with the rules and regulations of the Commission. Service hereunder shall be provided subject to the provisions of Part 284, Subpart B of the Commissions regulations. Shipper warrants that service hereunder is being provided on behalf of (N/A) , a local distribution company or an intrastate pipeline. For Part 284, Subpart G service, Shipper warrants that it is eligible for service and service hereunder is being provided on its own behalf.

Section 2. Term. Service under this Agreement shall commence as of the later of (a) November 15, 2011 or (b) completion of Transporter’s delivery point facilities and Shipper’s satisfaction of tariff requirements for creditworthiness and, subject to any evergreen period or right of first refusal, shall continue in full force and effect until 15 years from commencement of service.

Evergreen:      Month-to-Month   X   Year-to-Year

Pre-granted abandonment shall apply upon termination of this Agreement, subject to any right of first refusal Shipper may have under the Commission’s regulations and Transporter’s Tariff.

USG Pipeline Company, LLC as of 9/9/2019  
Effective Date: 04/04/2013

Negotiated Rates CDNAG, Second Revised Sheet No. 106, 3.0.0 A

Section 3. Rates and Surcharges. Shipper shall pay Transporter the applicable maximum tariff rates and surcharges, including furnishing Retainage as described in the above-referenced Rate Schedule, unless otherwise agreed to by the parties in writing and specified in Appendix A to this Service Agreement, as may be amended from time to time. Transporter and Shipper may mutually agree to a negotiated rate, including applicable adjustments, pursuant to Section 4.5 of Rate Schedule FT-1 or a discounted rate pursuant to Section 26 of the GT&C.

Section 4. Notices. Notices to Transporter under this Agreement shall be addressed to:

Customer Service  
USG PIPELINE COMPANY, LLC  
550 West Adams Street  
Dept. # 143-50  
Chicago, Illinois 60661-3676  
Email: usgpipeline@usg.com

and notices to Shipper shall be addressed to it at

Cooperative District for Northeast Alabama Gas  
513 Alabama Avenue  
P.O. Box 36  
Bridgeport, AL 35740  
Telecopy: (256) 495-2782  
Attention: Mr. Jim Hughes  
Email: jhughes@bridgeportutilities.com ,

until changed by either party by written notice.

Appendix A to Service Agreement No. CDNAG001  
Under Rate Schedule FT

between USG Pipeline Company(Transporter)

and

The Cooperative District for Northeast Alabama Gas (Shipper)

Transportation Demand/Maximum Interruptible Quantity: 4200 Dth/day

Negotiated Rate: Yes X No     

If other than applicable Maximum Rate in tariff,

Reservation Rate: \$4.56, as adjusted per negotiated rate

Commodity Rate: per negotiated rate

Adjustments, if any, per a Negotiated Rate: The Parties agree to a negotiated rate which will be fixed for the term of the FT Agreement at the following levels:

1. Monthly reservation charge equal to \$4.56/Dth, subject to the following increases (effective beginning the first month after the operating change occurs): (x) by \$0.90/Dth if USGPC is required to implement an interactive electronic bulletin board or equivalent system for nominations, scheduling or other communications, (y) by \$0.90/Dth if USGPC is required to implement separation of function rules limiting its flexibility to utilize USGC personnel to operate its pipeline, and (z) by \$0.90/Dth if USGPC is required to construct and operate gas quality measurement facilities rather than rely on gas quality measurements posted by East Tennessee. For purposes of this provision, a change shall be deemed required if it was brought about by a FERC regulation or ruling which was not unilaterally sought by USGPC or attributable to an election by USGPC to sell gas delivered on its facilities other than in connection with cashouts or balancing.
2. Commodity charges, surcharges and fuel/loss retainage to the extent provided by USGPC's tariff.
3. An authorized overrun rate of \$0.1833/Dth.
4. CDNAG's rate will not be adjusted for credits that would reduce any of the foregoing.
